Institute for Health Research

Purpose
Through the provision of expertise and training in the design and analysis of complex health research to University of Notre Dame researchers, post-graduate research student supervision and collaboration with other academic and clinical researchers, the IHR seeks to build a vibrant research focus with strong industry links that contributes to improving the health and wellbeing of the community.

Support services
- Research design advice
- Biostatistical & epidemiology
- Supervision of HDR students
- Links to other health researchers & groups

Key outcomes
- Increase biostatistical knowledge at UNDA
- Increase grant funding, publications and HDRs
- Increase collaborative research opportunities
