THE OBJECTS OF THE UNIVERSITY OF NOTRE DAME AUSTRALIA ARE:

a) the provision of university education within a context of Catholic faith and values; and

b) the provision of an excellent standard of –
   i) teaching, scholarship and research;
   ii) training for the professions; and
   iii) pastoral care for its students.
WELCOME TO NOTRE DAME’S SCHOOL OF ARTS & SCIENCES

The School of Arts & Sciences is a leading provider of challenging and innovative programs in the Arts, Behavioural Science, Communications & Media, Counselling and Science. Our staff are leaders in their fields such as political science, international relations, history, behavioural science and journalism. They will assist you to develop skills, knowledge and confidence to embark on your career.

Our programs produce passionate, creative and skilful graduates who are valued by employers in a range of workplaces for their ability to think critically, research thoroughly and communicate effectively to a variety of audiences using the most effective modes of delivery.

Our graduates can handle ambiguity and change in their stride. They are technically competent in their chosen discipline and often have interdisciplinary expertise as a result of completing a double Major or even a double Degree. We know our graduates may work in jobs that haven’t been created yet. The skills and attributes they develop with us in the School of Arts and Sciences prepare them for anything the future may bring.

YOU CAN COMBINE YOUR INTERESTS AND PASSION WITH PRACTICAL SKILLS TO CREATE A PATHWAY TO A DYNAMIC AND UNIQUE CAREER.

Our internships across all our programs provide our students with practical skills and experience to help them make an effective transition from study to work.

I encourage you to investigate our Experience the World Program that offers you the opportunity to travel overseas to complete a Study Tour that is credited to your degree. There is also the chance to take part in cultural immersion programs that go to developing countries to learn about the struggles facing many of the world’s people. See page 9 for more information.

In the School of Arts & Sciences, you will be supported and mentored every step of the way by people who know your name and care about your professional and personal growth.

BACHELOR OF ARTS (JOURNALISM)/ BACHELOR OF SCIENCE (ENVIRONMENTAL SCIENCE)
The Notre Dame difference

A LEADING UNIVERSITY
Independent nationwide surveys by the Federal Government rate us the leading university in WA for a range of Quality Indicators for Learning and Teaching in Humanities, Culture and Social Sciences including Learner engagement, Teaching scale, Student support and Graduate employment rate (qilt.edu.au).

PERSONALISED APPROACH
At Notre Dame we know that you are a person, not a number. Our personalised approach starts with our admissions process which is based on more than your ATAR score. It considers your personal qualities, motivation to study and academic potential, your contribution to school, church or community life and your academic record. An interview with an academic member of staff gives you the opportunity to fully explore your study options.

In our deliberately smaller lecture group sizes, you learn more, are heard more and have more one-on-one contact with academic staff.

LEARNING TO THINK, CRITICALLY AND CREATIVELY
In today’s world, thinking critically and creatively are essential life skills. These equip you with an increased ability to think and reason – to think big – a vital advantage not only during study, but throughout your life. Notre Dame’s Core Curriculum courses – Philosophy, Theology and Ethics – encourage you to expand your mind and develop critical thinking and reasoning skills (see next page).

REAL-WORLD EXPERIENCE
Internships, professional placements and volunteering opportunities set you up for life beyond university. At Notre Dame, you will learn from academics who are industry leaders. Through our practicum placements and internship programs, you will graduate with industry experience on your CV – a real advantage in getting the job you want.

FREMANTLE IS OUR CAMPUS
Notre Dame’s foundation Campus is located in the historic West End of the port city of Fremantle. Housed within beautifully restored heritage buildings, it provides a ‘town university’ of great character. The iconic Campus is close to the Fremantle Harbour, cafés, shops and the famous ‘Cappuccino Strip’, and all major transport hubs.

Check the Federal Government’s qilt.edu.au website to see how Notre Dame compares then call us on (08) 9433 0533 or email future@nd.edu.au so we can answer all your questions and help with your application.
PHILOSOPHY seeks to find the truth about humanity, God, our world and our conduct. At Notre Dame, we study Western Philosophy, using texts and methods of inquiry and reasoning developed over centuries by some of history’s finest critical minds.

ETHICS explores key elements such as human purpose and happiness, needs and rights, virtues and duties, justice and charity. Examines what it means to know and do what is good.

THEOLOGY explores the greatest of all questions, the questions about God. Examines the Catholic Intellectual Tradition through the two roles of “Faith” and “Reason”.

Super Thinking Powers
The rewarding skills of critical thinking and creative problem solving

There are perennial themes, theories and ideas that relate to today’s society. These ideas about meaning, truth and value can be explored in Notre Dame’s Core Curriculum, in which you will study Philosophy, Ethics and Theology. Employers seek graduates who can think critically, creatively and compassionately.

Living a good life involves making wise choices about what’s important to you, what you want to do and what may help the world become a better place.

Outcomes of the study of Notre Dame’s Core Curriculum are clearly reflected in the current Federal Government Graduate Outcomes Survey in which the University is placed at number one position in Western Australia in terms of Graduate employment rate, Median salary and Overall employer satisfaction.

“ETHICS, PHILOSOPHY & THEOLOGY EXPANDED MY MIND. IT OPENED UP WINDOWS, IT PUSHED MY BOUNDARIES AND CHALLENGED MY PERCEPTIONS. IT ALLOWED ME TO CRITICALLY ANALYSE SITUATIONS AND BE MORE REFLECTIVE.”

– Jessica, Science student

Your passport to a global learning experience

NOTRE DAME’S INTERNATIONAL IMMERSION PROGRAMS PROVIDE AN OPPORTUNITY TO EXPERIENCE AND TRULY APPRECIATE ANOTHER CULTURE WHILE ENHANCING YOUR ACADEMIC CREDENTIALS WITH CREDITS TOWARDS YOUR DEGREE.

STUDY ABROAD

Through Notre Dame’s Study Abroad program you can study at one of the University’s partner institutions in Europe, North America and across Asia.

Studying one semester of your degree in another part of the world is a major step to becoming a global citizen. Friendships made overseas often last a lifetime, opening doors to a network of worldwide contacts.

Notre Dame’s Study Abroad program partners include the following universities:

- University at Albany, New York, USA
- Bellarmine University, Kentucky, USA
- Boston College, Massachusetts, USA
- Catholic University of America, Washington DC, USA
- College of St Benedict/St John’s University, Minnesota, USA
- DeSales University, Pennsylvania USA
- Purdue University, Indiana, USA
- St Edward’s University, Texas, USA
- Saint Mary’s College, Indiana, USA
- University of Portland, Oregon, USA
- University of San Francisco, California, USA
- King’s University College, Western Ontario, Canada
- Leeds Trinity University, West Yorkshire, UK
- Saint Mary’s University, Twickenham, UK
- Maynooth University, Maynooth, Ireland
- Mary Immaculate College, Limerick, Ireland
- Catholic University of Lyon, Lyon, France
- Paderborn University, Germany
- Pázmány Péter Catholic University, Budapest, Hungary
- Sogang University, Seoul, South Korea
- Catholic University of Korea, Seoul, South Korea
- Sophia University, Tokyo, Japan
- Fu Jen Catholic University, New Taipei City, Taiwan
- Parahyangan Catholic University, Bandung, Indonesia

Approved exchange students pay the equivalent of their Notre Dame tuition fees for their semester abroad, plus travel costs and living expenses. For more information, please visit notredame.edu.au.
EXPERIENCE THE WORLD

Notre Dame helps make a difference to people's lives through a range of study tours and projects:

OVERSEAS STUDY TOURS

Students of History, Politics, Literature and other disciplines benefit significantly from Notre Dame's Overseas study tours and count the course directly towards their degree, Major or Minor. The University's own lecturers lead the tours – to destinations such as Spain, the UK, Ireland, Indonesia and the USA – for up to four weeks where intensive study is undertaken of the history, politics, language, culture and environment of the host city or country.

COMMUNITY ENGAGEMENT, CULTURAL IMMERSION

Our short-term service-learning and cultural immersion program – designed to contribute not only to programs of study but also personal development, takes students on life-changing journeys to the world's developing countries including:

› Cambodia: Social Justice students at the School of Arts & Sciences engage with community leaders to learn about everything from homelessness and poverty to social empowerment and solidarity following the fall of the Pol Pot regime.
› Timor-Leste, India, and Cambodia: Education students take their classroom knowledge to small, rural communities to deliver lessons in creative arts, language, sporting skills and everything in between to children of all ages.
› Kenya, Zimbabwe: Arts, Business, Education and Medicine students work within marginalised communities to support the men, women and children overcome a life cycle of poverty.

VOLUNTEER PROJECTS

Notre Dame students have a rich history of making a difference through involvement in volunteer projects both in Australia and abroad. During your time at the University, you will have opportunities to participate in social justice and charity projects which contribute both to the greater good and your own personal development. Notre Dame has facilitated student participation in volunteer projects in remote Australia, Africa and India. You will also be invited to explore volunteer activities in your local area. Many opportunities are available through the Notre Dame Volunteer Network.

  - Major: Philosophy
  - Major: Theology
  - Bachelor of Behavioural Science
WHY STUDY IN THE SCHOOL OF ARTS & SCIENCES AT NOTRE DAME?

When it comes to rating us as a school of higher learning, we let our students speak on our behalf. Check out the Federal Government’s Quality Indicators for Learning and Teaching (qilt.edu.au) to see where our students rate us:

Humanities, Culture and Social Sciences – #1 in WA for:
- Learner engagement
- Skills development
- Student support
- Graduate employment rate

Communications – #1 in WA for:
- Learner engagement
- Student support
- Skills development

Science and Mathematics – #1 in WA for:
- Student support
- Teaching quality
- Overall graduate satisfaction
- Overall quality of educational experience

DEGREES IN THE SCHOOL OF ARTS & SCIENCES

Single degrees
Our undergraduate degrees take 3 years to complete on a full time basis:
- Bachelor of Arts (pg 17)
- Bachelor of Arts (Politics and Journalism) (pg 22)
- Bachelor of Behavioural Science (pg 23)
- Bachelor of Communications and Media (pg 24)
- Bachelor of Counselling (pg 23)
- Bachelor of Science (pg 26)

Each Bachelor’s degree consists of six semesters over three years comprised of 24 courses overall. There are a number of ways that your degree can be structured. Here are two popular options:

Option 1
- Major
  - 8 courses
- Electives
  - 4 courses
- Core Curriculum
  - 3 courses
- 2nd Major
  - 8 courses
- Academic writing
  - 1 course

Option 2
- Electives
  - 6 courses
- Major
  - 8 courses
- Minor
  - 6 courses
- Core Curriculum
  - 3 courses
- Academic writing
  - 1 course
Honours
Honours is a one-year program available to students who have successfully completed an undergraduate degree. Completing the Honours program develops communication, analytical and research skills. This qualification provides enhanced graduate opportunities and serves as a bridge to postgraduate research degrees (See pg 35 for postgraduate information).

WORK INTEGRATED LEARNING

The School of Arts and Sciences offers you the chance to learn on location though our internships. Normally taken in your final year, the internships place you in a real work environment within the profession you hope to enter. You gain valuable real-world experience putting theory into practise while gaining academic credit for your degree. You will also make valuable professional contacts which may help you with future employment.

Our students have completed internships in organisations such as museums, radio stations, newspapers, theatre companies, consulates, government departments and agencies, politicians’ offices, corporate bodies, and health organisations.

GLOSSARY OF TERMS

Course: a unit of study usually made up of 3 hours contact per week for 13 weeks (one semester) e.g. ARTS1000 Academic Writing, Communication & Research.

Degree: the program of study that you are enrolled in e.g. Bachelor of Science (3 years) usually made up of 24 courses.

Double degree: the program of study that you are enrolled in e.g. Bachelor of Science/Bachelor of Arts (4 years: 32 courses) or Bachelor of Laws/Bachelor of Behavioural Science (5 years: 40 courses).

Major: a cluster of 8 courses that you will study over the years of your degree, related to one specific area of study e.g. History or Social Justice.

Double Major: a cluster of 16 courses (2 x 8 courses) that you will study over the years of your degree, related to two specific areas of study e.g. History and Social Justice; Theatre Studies and English Literature; Journalism and Film & Screen Production.

Minor: a cluster of 6 courses that you will study over the years of your degree, related to one specific area of study e.g. Archaeology or Politics & International Relations.

Elective: a course that you can choose to study as part of your degree, which is not a required or compulsory course.
Double degrees
You can combine two degrees and complete them in just **4 years**; examples are:

- Bachelor of Arts/Bachelor of Behavioural Science
- Bachelor of Arts (Politics & Journalism)/Bachelor of Behavioural Science
- Bachelor of Communications and Media/Bachelor of Arts
- Bachelor of Science/Bachelor of Arts

Or you can combine one of our degrees with a degree from another School and complete them in just **4 or 5 years**. Popular combinations are:

- Bachelor of Education (ECC/Primary/Secondary)/Bachelor of Arts (5 years)
- Bachelor of Laws/Bachelor of Arts (5 years)
- Bachelor of Laws/Bachelor of Behavioural Science (5 years)
- Bachelor of Laws/Bachelor of Communications & Media (5 years)
- Bachelor of Human Resource Management/Bachelor of Behavioural Science (4 years)
- Bachelor of Marketing and Public Relations/Bachelor of Communications & Media (4 years)

Vertical double degrees
A vertical double degree is a pathway between two degrees of different levels, normally a Bachelor and Master’s degree. A vertical double degree may reduce the time and money required to complete both degrees. See following page for more details.

Postgraduate degrees
Our postgraduate degrees (the ones you can do once you have completed an undergraduate degree) are:

- Doctor of Philosophy (research) (pg 36)
- Master of Philosophy (research) (pg 37)
- Master of Arts (research) (pg 37)
- Master of Counselling (coursework) (pg 34)
- Doctor of Counselling (research) (pg 38)
- Master of Science (research) (pg 38)
INTRODUCING VERTICAL DOUBLE DEGREES

A vertical double degree is designed to fast track you through both a Bachelor’s degree and a Master’s degree in a totally new approach to tertiary education at Notre Dame that saves both time and money.

Currently offered to students in the Bachelor of Behavioural Science and Bachelor of Counselling degree programs, it reduces the overall duration of both degrees by giving you credit in the postgraduate degree for the learning acquired in the undergraduate degree.

WHY IS THE VERTICAL DOUBLE DEGREE A GOOD IDEA?

The Master of Counselling usually takes two years to complete and begins after the completion of a three-year Bachelor’s degree. Completing the Master of Counselling in a vertical double degree format reduces the overall time it takes to complete both your Bachelor’s and Master’s degrees from five years to four years. It means you get into the workforce sooner, with increased employment options, and you save money too.

HOW DO THE FEES WORK?

A vertical double degree saves you a year of postgraduate fees and, all the courses you study that are credited to your Master’s degree, are charged to you at an undergraduate rate.

WHEN CAN I CHOOSE TO OPT IN TO THE VERTICAL DOUBLE DEGREE?

You can choose to opt in to the vertical double degree at any time before the third year of your Bachelor’s degree.

WHEN DO I GRADUATE?

The two degrees are studied consecutively, not concurrently which means you graduate twice – first from the Bachelor’s degree and then from the Master’s degree.
“NOTRE DAME IS UNIQUE BECAUSE OF ITS SIZE. EVERY SINGLE STUDENT GETS A LOOK IN AND EVERYONE IS REALLY INVOLVED. YOU ARE INVOLVED WITH THE TEACHERS AND THEY ARE INVOLVED WITH YOU.”

Grace
POLITICS & JOURNALISM
GRADUATE
BACHELOR OF ARTS

Practicum: 90 hrs

Recommended Year 12 Subjects: ATAR English or English Literature

Loan Scheme: FEE-HELP

The Bachelor of Arts develops a student’s ability to research, analyse, interpret, draw conclusions, problem-solve and communicate. These are the skills needed in many 21st century workplaces. Along with in-depth knowledge about their chosen discipline area, students are given opportunities to show initiative, work as a team member, and be flexible and adaptable.

Students develop all these skills while following their personal and professional interests across a broad range of Majors and Minors in a variety of discipline areas.

Majors and Minors

Bachelor of Arts students must complete an eight-course Major as part of their degree and usually undertake at least one course from their Major in each semester. Most Majors build sequentially in content, themes and skills and work towards the acquisition of advanced skills and knowledge by the completion of the final year of study.

CAREER OPPORTUNITIES

Career opportunities are diverse and depend on the courses chosen.

Combining complementary discipline areas can strengthen career prospects and provide greater flexibility in options for graduate employment.

See individual Majors for specific career information.

ARCHAEOLOGY

BACHELOR OF ARTS (MAJOR: ARCHAEOLOGY)
BACHELOR OF SCIENCE (MAJOR: ARCHAEOLOGY)
BACHELOR OF BEHAVIOURAL SCIENCE (MAJOR: ARCHAEOLOGY)
BACHELOR OF COMMUNICATIONS & MEDIA (2ND MAJOR: ARCHAEOLOGY)

Practicum: 225 hrs (Science), 90 hrs (Arts)

The Archaeology Major draws on both the sciences and the humanities to interpret the physical evidence left by humans and their ancestors around the planet. Students learn to use information from geography, history, mathematics, biology, anthropology, chemistry and sociology to process evidence at sites to form the best interpretation about past human behaviour.

Understanding past human behaviour informs our view of modern society and its challenges. The Major provides comprehensive training in archaeological methods and theory, field survey and excavation, as well as Aboriginal and maritime archaeology, with a strong Western Australian and Australian focus.

SAMPLE COURSES

Reading the Past: Interpretation from Archaeology
Maritime Archaeology: Ships & Harbours
The Archaeology of Indigenous Australia
Unearthing the Past: The History and Archaeology of Western Australia
Archaeology Field Methods

CAREER OPPORTUNITIES

Archaeologist
Heritage consultant
Museum curator
Native title project officer with Aboriginal corporations, non-government organisations (NGOs), resources companies or government departments

Apply direct notredame.edu.au
RESEARCHERS UNEARTH THE TRUTH BEHIND PEEL TOWN

For more than 100 years, it has been accepted as fact that some of Western Australia’s first settlers abandoned Peel town because of the camp leader Thomas Peel and his inept leadership. Research by Dr Shane Burke has uncovered findings that suggest extreme hardship was the major factor in the decision to abandon the area. As part of his research, Dr Burke analysed 5762 charcoal fragments from hearths, fireplaces and ash pits associated with five dwellings from the Peel town camp that were uncovered recently as part of archaeological work at the site, located about 10km south of Fremantle. “This new research suggests that WA’s new arrivals were continually looking for resources and trying to adapt to their radically changed circumstances,” Dr Burke said.

HISTORY

BACHELOR OF ARTS (MAJOR: HISTORY)
BACHELOR OF BEHAVIOURAL SCIENCE (MAJOR: HISTORY)
BACHELOR OF COMMUNICATIONS & MEDIA (2ND MAJOR: HISTORY)

Practicum: 90 hrs

The study of history helps people comprehend the complexities and conflicts of the world today. By studying the past, students can reach an essential understanding of historical events, politics, conflicts, cultures, values and traditions which shape the modern world. The Major is designed to benefit students in their professional lives with a curriculum that covers areas such as historical theory and practice, modern world history and Australian history.

SAMPLE COURSES

A History of Western Civilisation
The Caesars
Of Vice & Virtue: Social change in Victorian Britain
A History of Crime: Assessing the Evidence
The Kennedys: America in the 60s

CAREER OPPORTUNITIES

Historian
Intelligence analyst
Strategic policy writer
Ministerial and parliamentary liaison officer
Community project officer
Heritage consultant
Writer
POLITICS & INTERNATIONAL RELATIONS

BACHELOR OF ARTS
(MAJOR: POLITICS & INTERNATIONAL RELATIONS)
BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: POLITICS & INTERNATIONAL RELATIONS)
BACHELOR OF COMMUNICATIONS & MEDIA (2ND MAJOR: POLITICS & INTERNATIONAL RELATIONS)

Practicum: 90 hrs

In today’s world there is a growing demand for people who are well informed about local and international politics and who possess the skills to meet the challenges presented by globalisation.

The study of Politics & International Relations is a unique Major of professional training specifically designed for those who wish to pursue a career in public affairs, international relations and/or politics. Supported by prominent politicians, members of the media, and public sector representatives, Notre Dame’s Major gives you the opportunity to develop skills and knowledge with contemporary vocational applications.

SAMPLE COURSES
- Strategy, Security and Diplomacy
- Human and Environmental Security
- Terrorism and Intelligence
- The Modern Middle East
- US Foreign Policy Since 1945

CAREER OPPORTUNITIES
- Intelligence analyst
- Strategic policy writer
- Ministerial and parliamentary liaison officer
- International aid worker
- Politician
- Community project officer
- Diplomat

THE ‘INSIDE STORY’

Is the Australian Government’s billion dollar security budget money well spent? What about cyberterrorism? Is it a real threat to the online community? Has WikiLeaks improved the human rights landscape?

Dr Daniel Baldino, senior lecturer in Politics and International Relations at our School of Arts & Sciences has the ‘inside story’ on the half-truths, conspiracy theories, government bungles and ideologies in the secretive world of intelligence and security at his fingertips.

His expertise in Australian defence policy, counter terrorism strategies and politics of the Indo-Pacific region offers students the opportunity to get rare insights into post 9/11 Australia and beyond into the countries that are fast emerging as the region’s new pace makers.
SOCIAL JUSTICE

BACHELOR OF ARTS (MAJOR: SOCIAL JUSTICE)
BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: SOCIAL JUSTICE)
BACHELOR OF COMMUNICATIONS & MEDIA
(2ND MAJOR: SOCIAL JUSTICE)

Practicum: 90 hrs

The concept of social justice challenges people to step out of traditional mindsets and become involved in making a difference in their world. A Major in Social Justice at Notre Dame offers students the ability to understand the causes of complex problems in our society and to consider lasting solutions.

The Social Justice Major is designed to offer a range of challenging courses for those students who seek to make a positive impact in their chosen careers. It encompasses areas such as understanding peace and conflict, the social psychology of justice, living human rights, genocide, the politics of global development, human and environmental security, and community engagement.

SAMPLE COURSES

Inside the Politics of Global Development
Service Learning International
Social Implications of Globalisation
Peace and Conflict Studies
Aboriginal People

CAREER OPPORTUNITIES

Social advocate; practitioner and educator with government agencies, international charities, non-government organisations (NGOs), development agencies, lobby groups; court support program manager; case worker in justice services; communications & policy advisor, researcher.

ENGLISH LITERATURE

BACHELOR OF ARTS
(MAJOR: ENGLISH LITERATURE)
BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: ENGLISH LITERATURE)
BACHELOR OF COMMUNICATIONS & MEDIA
(2ND MAJOR: ENGLISH LITERATURE)

Practicum: 90 hrs

The study of English literature allows students to explore the powerful and complex development of literature in a variety of contexts and to investigate writing through the ages in a variety of forms including prose, poetry and drama.

The program offers a balanced approach to a diversity of literature in English, ranging from the works of Shakespeare to Classical and Romantic poetry and the Victorian novel, to children’s literature, Australian and Irish literatures and comparative Indigenous literatures. Many courses are further enhanced by the study of disciplines such as History, Politics and Theatre Studies.

SAMPLE COURSES

World Literatures Today
Australian Literature and the Post-colonial Challenge
Children’s Literature
The Art and Craft of Travel Writing
Gothic Literature and Its Legacy

CAREER OPPORTUNITIES

Editorial assistant, copywriter, content marketing manager, social media manager, researcher, sales manager, administrator, advertising account officer, public relations officer, employment recruiter, publishing assistant, teacher, and writer.

“AT NOTRE DAME, YOU LEARN TO CONSIDER THE WHOLE PERSON. STUDYING LAW AND JOURNALISM, IT’S IMPORTANT TO HAVE AN AWARENESS OF SOCIAL JUSTICE AND HOW YOUR ACTIONS AFFECT PEOPLE.”

Charlie
LAW / COMMUNICATIONS & MEDIA STUDENT
THEATRE STUDIES

BACHELOR OF ARTS
(MAJOR: THEATRE STUDIES)
BACHELOR OF COMMUNICATIONS & MEDIA
(2ND MAJOR: THEATRE STUDIES)
BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: THEATRE STUDIES)
Practicum: 90 hrs

Theatre Studies at Notre Dame is an engaging, creative and academically rigorous program which provides opportunities for study in acting, directing, theatre crafts, communications and literature. Studied in combination with other discipline areas such as English Literature or Film & Screen Production, it equips students with the necessary practical and theoretical experience for graduate work on stage or in film.

SAMPLE COURSES
Theatre Crafts
Text-Based Production
Drama in the Age of Shakespeare
Australian Theatre
Theory and Practice of Modern Theatre
Fundamentals of Directing

CAREER OPPORTUNITIES
Stage and theatre manager
Actor
Director
Drama and/or English teacher (upon completion of a postgraduate teaching qualification)
Screenwriter
Broadcasting presenter
Arts administrator
TV or film director

PHILOSOPHY

BACHELOR OF ARTS (MAJOR: PHILOSOPHY)
BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: PHILOSOPHY)
BACHELOR OF COMMUNICATIONS & MEDIA
(2ND MAJOR: PHILOSOPHY)

At Notre Dame, students are encouraged to reflect deeply and critically on fundamental questions and are challenged to examine their own understandings, beliefs and values.

The Philosophy Major teaches students to analyse and evaluate arguments about truth, reality, the human person and political, religious and ethical systems. Particular emphasis is placed on the history of Western philosophy in this Major.

Philosophy also contains the study of ethics. Ethics is concerned with human wellbeing. The main themes covered include happiness, reason, morality and the constitution of the ethical self. The themes are in turn applied to many practical issues, including racism, sexuality, human rights, technology and capital punishment.

SAMPLE COURSES
Natural Law
Cosmology and the Philosophy of Science
Political Philosophy
Myth and Meaning

CAREER OPPORTUNITIES
Researcher
Intelligence officer
Diplomat
Youth worker
Policy analyst

“I ENJOY TEACHING POLITICS AT NOTRE DAME BECAUSE IT ENCOURAGES STUDENTS TO ENGAGE IN THE WORLD AROUND THEM AND UNDERSTAND BOTH THEIR RIGHTS AND THEIR RESPONSIBILITIES TOWARDS OTHERS.”

Martin
LECTURER
THEOLOGY

BACHELOR OF ARTS (MAJOR: THEOLOGY)
BACHELOR OF BEHAVIOURAL SCIENCE (MAJOR: THEOLOGY)

Theology takes centre stage in the life and mission of a Catholic university. Through the study of Theology, people develop the skills to examine scripture and tradition to further their understanding of Catholic faith.

A Major in Theology provides students with a grounding in biblical and theological studies and associated disciplines. It is intended for those who wish to pursue personal and spiritual growth and for those who have specific vocational and ministerial goals.

SAMPLE COURSES

Introduction to the Old Testament
Introduction to the New Testament
Introduction to Christian Spirituality
Liturgy: Work of God and Work of God’s People
Psalms and Wisdom
Reformations: Churches in the 16th Century

CAREER OPPORTUNITIES

Pastoral counsellor
Parish coordinator
Teacher (upon completion of a postgraduate teaching qualification)
Youth worker

BACHELOR OF ARTS (POLITICS & JOURNALISM)

Practicum: 90 hrs

Recommended Year 12 Subjects:
ATAR course English, Politics & Law and Media Production & Analysis

Loan Scheme: FEE-HELP

The Bachelor of Arts (Politics & Journalism) program combines studies in communications and media with a rigorous grounding in the areas of politics and international relations, history, Aboriginal studies, and economics, providing significant depth to the degree. It is not enough to be skilled in the practice of journalism or reporting. Media practitioners need to be capable of understanding the concerns and problems uppermost in the minds of their viewers or readers. This program is designed to provide these skills. Similarly, those who wish to focus on the politics component of their degree will learn to understand the workings of modern media and the way that public attitudes and social and political policy can be influenced through media representation.

SAMPLE COURSES

Setting the Agenda: The Media and Politics
Media and Society
Journalism: Theory and Practice
Introduction to World Politics

CAREER OPPORTUNITIES

Journalist, politician, intelligence analyst; strategic policy writer; ministerial and parliamentary liaison officer; politician; diplomat; community project officer; employee engagement adviser; and writer.
The Bachelor of Behavioural Science degree integrates specialised knowledge developed in social science disciplines with a strong focus on critical psychology. Students are encouraged to incorporate political, economic, cultural and other social influences that promote or obstruct human behaviour. They learn to analyse the individual, group and societal levels of thinking to examine how people respond to the various situations they experience. Graduates work with those who may be experiencing marginalisation to develop and support social justice based on empowerment and liberation.

**SAMPLE COURSES**
- Developmental Psychology
- Discourse, Power and Politics
- Behavioural Science Internship
- Community: Policy and Development

**CAREER OPPORTUNITIES**
- Careers in a wide variety of industries and fields including community development, social impact assessment, advertising, youth justice services, and government departments.

---

The Bachelor of Counselling is a highly practical, skills-based degree that focuses on the development of the human person throughout the lifespan. The degree combines personal, spiritual and caring dimensions in a highly practical, skills-based qualification. Students complete a foundation year in which they study theories and approaches to counselling, personal growth and introduction to counselling skills. A range of courses of study provide opportunities to focus on special interest areas, including depression, stress and anxiety management.

**Accreditation**
The Bachelor of Counselling is a professionally accredited degree recognised by the Psychotherapy and Counselling Federation of Australia.

**SAMPLE COURSES**
- Counselling Couples and Families
- Counselling and Children
- Trauma and Addiction Counselling
- Counselling the Adolescent

**CAREER OPPORTUNITIES**
- Counsellor
- Youth worker
- Trauma counsellor
- Drug and alcohol counsellor
- Family counsellor
BACHELOR OF COMMUNICATIONS & MEDIA

Practicum: 90 hrs

Recommended Year 12 Subjects:
ATAR course English and Media Production & Analysis

Loan Scheme: FEE-HELP

The study of Communications & Media allows students to explore the principles and techniques of communication through the examination of a wide range of genres in print, non-print and multimedia, as well as new and emerging media technologies.

The Communications & Media program at Notre Dame is designed to teach students how to develop communication and media strategies and skills, using a range of contemporary technologies suitable for a variety of workplaces. This diverse and rewarding program provides several areas of emphasis including: journalism (print, broadcast and electronic), media analysis, multimedia and web design, screenwriting, film production (including documentary and drama), and digital photography.

SAMPLE COURSES

Media and Society
Screen Production: Skills & Practice
Advanced Screen Production: Documentary and Drama
Journalism: Theory and Practice

CAREER OPPORTUNITIES

Communications specialists are needed in many organisations and as a result, communications and media graduates are in demand.

JOURNALISM

BACHELOR OF COMMUNICATIONS & MEDIA (MAJOR: JOURNALISM)
BACHELOR OF ARTS (MAJOR: JOURNALISM)
BACHELOR OF BEHAVIOURAL SCIENCE (MAJOR: JOURNALISM)

Practicum: 90 hrs

Journalism is an exciting, industry-focused Major that teaches students practical and critical skills in print, radio, television, video and online journalism. It includes the theories and practices of the profession and legal and ethical obligations.

The Major teaches students how to research and write feature stories, develop and present news stories for radio, television, video and online broadcast and understand professional and ethical codes of practice.

SAMPLE COURSES

Feature Writing
Television and Video Journalism
Online Newsroom
Photojournalism
Radio
Digital Photography

CAREER OPPORTUNITIES

Journalist, digital marketer, communications consultant, sports reporter, social media marketing specialist, media and communications advisor, PR advisor, events coordinator, campaign officer, research officer, photographer, editor, travel writer, and videographer.
FILM & SCREEN PRODUCTION

BACHELOR OF COMMUNICATIONS & MEDIA
(MAJOR: FILM & SCREEN PRODUCTION)

BACHELOR OF ARTS
(MAJOR: FILM & SCREEN PRODUCTION)

BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: FILM & SCREEN PRODUCTION)

Practicum: 90 hrs

Film & Screen Production is a dynamic and cutting-edge Major that teaches students practical skills and critical understanding of film, together with online and interactive media. Students learn diverse film and media production techniques, as well as advanced theoretical understandings that will support them in gaining employment in a number of fields.

Delivered in small classes by staff with strong industry connections and knowledge, the Film & Screen Production Major explores the use of state-of-the-art film equipment and media technologies, and offers an excellent range of critical courses which develop an understanding of film history, genre and cinematic style.

SAMPLE COURSES
- Digital Photography
- Interactive Media
- Advanced Screen Production: Drama
- Australian Cinema
- Screenwriting

CAREER OPPORTUNITIES
Careers in the entertainment industry such as directors, writers, producers, social media content creators, editors, sound recordists, special effects supervisors, production managers and videographers.

TIMOTHY CONTRIBUTES TO ICONIC AUSSIE FILM

The career ambitions of Timothy Hadwen gained a significant boost after working on one of Australia’s most iconic films during his time at Notre Dame.

The Communications & Media graduate interned alongside leading Australian producers Nelson Woss and Ben Wright in the film Red Dog: True Blue – an experience provided through the University.

“Notre Dame takes you out of your comfort zone and gives you new opportunities to learn about your future career,” Timothy said.

“Not only did I have the chance to assist in the post-production of Red Dog: True Blue, but I also travelled to Los Angeles and Cambodia through Notre Dame, gaining valuable professional experience.”
BACHELOR OF SCIENCE

Practicum: 225 hrs

Recommended Year 12 Subjects:
ATAR course English and Science

Loan Scheme: FEE-HELP

This three year degree has been designed to prepare students to take on the challenges facing our world today and in the future. Students gain knowledge and skills across several areas of Science which increases job possibilities, and also builds depth of learning through a specialist Science Stream aligned to specific interests.

What will I study and what skills will I develop?
All students of the Bachelor of Science study a set of core interdisciplinary Science courses including experimental design, maths, biology, chemistry and ecology. These courses provide the basis for strong skills in scientific investigation, including data collection and analysis, critical thinking, problem solving, teamwork, and effective communication and also ensure versatile graduates. These skills are highly sort after by employers and applicable to many workplaces both within and outside of the field of Science.

Can I follow my own interests in Science?
Building on these core Science courses, students deepen their study of Science by selecting a Science Stream that matches their interests: Biology & Environment, Environment & Heritage, Human & Medical Science, or Multidisciplinary Science. Each Stream ensures in-depth knowledge and skill development through practical hands-on experience in the classroom, the laboratory, and in the field.

Can I do a Major or Minor in this degree?
With guidance from our expert staff, students have the flexibility to further tailor their study experience. Students can use this flexibility to strengthen their scientific expertise by completing a Major in Archaeology, Environmental Management or Biology. Alternatively, students may incorporate greater breadth of perspective and experience by studying courses from one or more areas of secondary interest, such as Journalism, Film & Screen Production, Politics and International Relations, Social Justice, Business Studies, Behavioural Science or Preventative Health. Students may choose to complete a Minor (6 courses) in one of these areas.

Why is doing an internship important?
To ensure students are job-ready, this degree builds in career education, authentic industry experiences and a six-week professional internship with an organisation aligned with their studies and career aspirations. This valuable experience provides students with the opportunity to apply their knowledge and skills to real-life situations in industry and to be mentored by professionals who are leaders in their fields. Importantly, students will build confidence and independence, and industry contacts may help with the transition from university to employment after graduation.
What courses make up the Science core?
Eight (8) courses at introductory, intermediate and advanced levels create an interdisciplinary Science core.
› SCIE1001 Fundamentals of Science Research and Communication
› SCEI1000 Introduction to Chemistry
› SCIE1150 Introduction to Biological Science
› MATH1030 Principles of Mathematics OR MATH1300 Mathematics Foundations
› ENVR2330 Australian Ecology: from Theory to Practice
› HLTH2270 Data Analysis & Experimental Design
› SCIE3350 Directed Science Research
› SCIE3900 Science Internship

What Science Streams can I choose from?
Students select a Science Stream made up of a minimum of seven (7) courses to deepen their learning in one of the following streams:
› Biology & Environment
› Environment & Heritage
› Human & Medical Science
› Multidisciplinary Science
See the following pages for more details about each Stream.

CAREER OPPORTUNITIES
Career opportunities are diverse and depend on the Science Stream completed.
Combining complementary study areas can strengthen career prospects and provide greater flexibility in options for graduate employment.
The Bachelor of Science is an excellent preparation for further post graduate study in Science and other areas such as Education and Medicine.

PLANTING THE SEED FOR A CAREER IN ENVIRONMENTAL REHABILITATION
Studying for a Bachelor of Science (Biology and Environmental Science) has inspired Notre Dame student, Lachlan Warner, to consider working in the area of environmental management, a career that involves sustaining the environment for future generations.
“The highlight of the coursework at Notre Dame is the hands-on experience. The University takes students outside the classroom and into the lab or industry areas where they experience the real world side of their studies,” he said.
“The three courses of Philosophy, Ethics and Theology have opened my eyes to a broader perspective of life. There is so much going on around me and the Core Curriculum has helped me to critically analyse the day-to-day settings and scenarios that I encounter.”
**BIOLOGY & ENVIRONMENT STREAM**

An understanding of biology and the environment is at the heart of many significant scientific developments, including solutions to global challenges. This Stream equips students with the fundamental skills and knowledge to understand and work with the complexity and diversity of life, from cellular to ecosystem levels.

A strong practical focus gives students valuable hands-on experience of plants and animals from aquatic, coastal and terrestrial settings and introduces approaches for the management and welfare of our natural environments.

› Combine this Stream with study in specialist courses such as environmental assessment and spatial analysis to prepare for careers aligned with the monitoring, management and conservation of natural resources.

› Combine this Stream with more courses in either Environmental Management, Biology or Archaeology to complete a full eight-course Major.

› Or diversify career opportunities by combining this Stream with courses in complementary disciplines such as Journalism, Film & Screen Production, Business Studies, Politics and International Relations or Social Justice to form a six-course Minor.

The seven (7) courses for the Biology & Environment Stream are:

**REQUIRED COURSES**

- ARCL1020 Introduction to Archaeology
- GEOG1110 Physical Geography: Climates, Geology and Soils
- BIOL2100 Animal Diversity
- BIOL2260 Plant Diversity
- BIOL3250 Aquatic Science
- BIOL3000 Adaptations for Survival in the Australian Environment
- GEOG3110 Coastal Processes and Planning

**CAREER OPPORTUNITIES**

Graduates of the Biology & Environment Stream have the opportunity of employment across private and government sectors and not-for-profit organisations, including graduate positions as an environmental advisor, conservation officer, educator, biologist or ecologist. Further study in postgraduate programs is also available.
ENVIRONMENT & HERITAGE STREAM

Understanding and preserving our natural environment and cultural heritage are essential to maintaining quality of life for current and future generations. Key skills and knowledge to succeed in these fields are developed in this Stream.

Students are equipped to work with the complexity of environmental systems through the study of ecology, biodiversity, physical geography, natural resource management, environmental impact assessment, and the application of spatial analysis.

Cultural heritage is introduced via courses in archaeology, including field experiences to hone skills in material collection and analysis. With a strong focus on the history and archaeology of WA, students study specialist areas such as maritime archaeology and the archaeology of Indigenous Australia.

› Combine this Stream with study in specialist courses in plant and animal biology and coastal processes to enhance environmental management expertise and prepare for careers aligned with natural landscapes.

› Diversify career opportunities by combining this Stream with more courses in either Archaeology, Environmental Management or Biology to complete a Major.

› Or combine this Stream with courses in complementary disciplines such as Journalism, Politics and International Relations or Social Justice to form a Minor.

The seven (7) courses for the Environment & Heritage Stream are:

**FIVE (5) REQUIRED COURSES**

- ARCL1020 Introduction to Archaeology
- GEOG1110 Physical Geography: Climates, Geology and Soils
- BIOL2100 Animal Diversity
  or
- BIOL2260 Plant Diversity
- ENVR3310 Environmental Impact Assessment and Planning
- GEOG3290 Geographic Information Systems

**PLUS ANY TWO (2) FROM A RANGE OF COURSES INCLUDING:**

- ARCL1030 Reading the Past: Interpretation from Archaeology
- ARCL3040 Archaeological Field Methods
- ENVR3520 Natural Resource Management

**CAREER OPPORTUNITIES**

Graduates of this Stream may find employment in private and government sectors and not-for-profit organisations, including graduate positions as an environment officer, heritage officer, environmental consultant, sustainable development officer, conservation officer and archaeologist. Further study in post graduate programs in Science is also available.
HUMAN & MEDICAL SCIENCE STREAM

This Stream is ideal for anyone with a passion for understanding the science of the human body and an interest in working in the health industry. Through this Stream students build on the strong foundation from the core Science courses to gain expertise in anatomy, physiology, biochemistry, microbiology, pathology and neuroscience.

This Stream provides a unique balance of theory, practice and interdisciplinary perspectives to ensure a holistic approach to the study of human science. Students develop sort-after skills in problem-solving, innovation, analysis and communication.

› Diversify career opportunities by combining this Stream with courses in complementary disciplines such as Behavioural Science, Preventive Health, Journalism or Social Justice to form a Minor.
› Or take more courses in Human & Medical Science to extend knowledge and experience.

The seven (7) courses for the Human & Medical Science Stream are:

<table>
<thead>
<tr>
<th>REQUIRED COURSES</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL1250 Molecular and Cell Biology</td>
</tr>
<tr>
<td>HLTH1000 Human Structure and Function</td>
</tr>
<tr>
<td>HLTH1030 Anatomy and Physiology of Body Systems</td>
</tr>
<tr>
<td>HLTH2210 Biochemistry</td>
</tr>
<tr>
<td>HLTH2300 Microbiology</td>
</tr>
<tr>
<td>HLTH3200 Pathology</td>
</tr>
<tr>
<td>HLTH3450 Neuroscience</td>
</tr>
</tbody>
</table>

CAREER OPPORTUNITIES

Graduates of this Stream have the opportunity of employment across private and government sectors and not-for-profit organisations, including graduate positions as science technicians, educators, medical representatives and research officers. The Human and Medical Science Stream provides excellent entry opportunities into research, medicine and other health professions through postgraduate study.
MULTIDISCIPLINARY STREAM

Students who are attracted to the idea of being able to move between diverse careers, or who have a clear, but somewhat unique, idea about their professional future should consider this versatile Stream.

This Stream offers a truly ‘liberal science’ experience, maximising the breadth of learning in interdisciplinary science. The flexibility of this Stream helps students tailor their program to meet personal interests, if other Streams do not seem ideal, and it caters for unconventional career trajectories where scientific skills offer an advantage.

Breadth of experience is provided through a balance of theory and practice from two or more scientific disciplines, and a focus on developing skills in critical thinking, innovation, analysis and communication are prioritised. Interdisciplinary perspectives also encourage holistic and creative approaches to problem-solving which are highly sort after by employers and applicable to many workplaces.

The seven (7) courses for the Multidisciplinary Stream are:

**THREE (3) REQUIRED COURSES**

- ARCL1020 Introduction to Archaeology
- GEOG1110 Physical Geography: Climates, Geology and Soils
- BIOL2100 Animal Diversity
  or BIOL2260 Plant Diversity

Plus any four (4) upper year Science or Mathematics courses approved by the Program Coordinator, of which a minimum of two (2) must be at the 3000 level.

**CAREER OPPORTUNITIES**

Employment destinations of graduates from this Stream will vary depending on the specific path taken, however opportunities are available across private and government sectors and not-for-profit organisations, including careers in research and development, health, manufacturing, and resources. Graduates may consider pursuing a career outside of the field of Science, but where scientific thinking is a valuable attribute. This Stream provides excellent entry opportunities into professional postgraduate courses, research and medicine.
**ARCHAEOLOGY**

**BACHELOR OF SCIENCE (MAJOR: ARCHAEOLOGY)**
**BACHELOR OF ARTS (MAJOR: ARCHAEOLOGY)**
**BACHELOR OF BEHAVIOURAL SCIENCE (MAJOR: ARCHAEOLOGY)**
**BACHELOR OF COMMUNICATIONS & MEDIA (2ND MAJOR: ARCHAEOLOGY)**

**Practicum:** 225 hrs (Science), 90 hrs (Arts)

The Archaeology Major draws on both the sciences and the humanities to interpret the physical evidence left by humans and their ancestors around the planet. Students learn to use information from geography, history, mathematics, biology, anthropology, chemistry and sociology to process evidence at sites to form the best interpretation about past human behaviour.

Understanding past human behaviour informs our view of modern society and its challenges. The Major provides comprehensive training in archaeological methods and theory, field survey and excavation, as well as Aboriginal and maritime archaeology, with a strong Western Australian and Australian focus.

**SAMPLE COURSES**
- Reading the Past: Interpretation from Archaeology
- Maritime Archaeology: Ships & Harbours
- The Archaeology of Indigenous Australia
- Unearthing the Past: The History and Archaeology of Western Australia
- Archaeology Field Methods

**CAREER OPPORTUNITIES**
- Archaeologist
- Heritage consultant
- Museum curator
- Native title project officer with Aboriginal corporations, non-government organisations (NGOs), resources companies or government departments

**BIOLOGY**

**BACHELOR OF SCIENCE (MAJOR: BIOLOGY)**
**BACHELOR OF BEHAVIOURAL SCIENCE (MAJOR: BIOLOGY)**

**Practicum:** 225 hrs

Biology spans the breadth of knowledge and understanding that relates to all life and is central to many significant scientific developments. In Australia, governments acknowledge that declining biodiversity and ecosystem health are real problems and that biologists play a key role in the sustainable management and conservation of our natural resources.

Biology graduates play a vital role in filling the gaps in our knowledge of species, ecosystems and their threats, and in doing so contribute to the sustainable management of natural resources in Australia and elsewhere.

**SAMPLE COURSES**
- Molecular and Cell Biology
- Plant Diversity
- Microbiology
- Aquatic Science
- Australian Ecology: From Theory to Practice

**CAREER OPPORTUNITIES**
- Biologist
- Ecologist
- Environmental advisor
- Conservation officer
- Educator
ENVIRONMENTAL MANAGEMENT

BACHELOR OF SCIENCE
(MAJOR: ENVIRONMENTAL MANAGEMENT)

BACHELOR OF ARTS
(MAJOR: ENVIRONMENTAL MANAGEMENT)

BACHELOR OF BEHAVIOURAL SCIENCE
(MAJOR: ENVIRONMENTAL MANAGEMENT)

BACHELOR OF COMMUNICATIONS AND MEDIA
(2ND MAJOR: ENVIRONMENTAL MANAGEMENT)

Practicum: 225 hrs (Science) 90 hrs (other)

We need to act now to preserve and enhance the environment. This Major tackles important issues such as climate change, urbanisation, and the need for water and food security. The skills and knowledge acquired are relevant to many workplaces, making environmental management a growth employment area.

Graduates can influence the direction of future government policy and contribute to behavioural change in individuals and industry to provide solutions to global warming, biodiversity conservation concerns, water resourcing issues and environmental degradation problems.

SAMPLE COURSES
Australian Ecology: From Theory to Practice
Environmental Impact Assessment
Geographic Information Systems
Coastal Processes and Planning

CAREER OPPORTUNITIES
Environmental consultant
Sustainable development officer
Conservation officer

A PERSONAL JOURNEY

In just two short years, Tom de Souza, has progressed from Journalism student at Notre Dame to one of Australia’s most promising young writers.

Since receiving the Outstanding Journalism Student Award at the WA Media Awards in October 2016, his work has been widely published in some of the most read publications in the country, including the prestigious The Australian newspaper.

“Studying at Notre Dame has provided me with a really solid foundation in the principles of journalism – from some great role models and mentors,” Tom said.

“The biggest reward for me is – through my writing, giving a voice to those who might not have one.

“Often, the stories that don’t get told are the best ones. I hope to make the world a more just place through my writing. That’s what drives me to succeed.”
POSTGRADUATE DEGREES BY COURSEWORK

COUNSELLING

MASTER OF COUNSELLING

Duration: Two years full-time or the equivalent part-time
Practice: 190 hrs
Admission requirements:
A Bachelor’s degree from a recognised institution
Loan Scheme: FEE-HELP

Notre Dame Counselling students are taught an integrative approach to counselling practice, with a focus on contemporary and evidence-based approaches, group-work, research skills and counselling across the life-span. In the second year of the program an industry placement is undertaken.

Students learn to work with clients in a variety of settings; identify and discuss links between theory, practice and personal awareness; identify, discuss and contrast concepts and issues in various theoretical models; assess and intervene in response to a range of presenting issues; and use research methods to carry out independent research.

SAMPLE COURSES

Interpersonal Group Practice
Counselling Skills
Theoretical Approaches to Counselling
Approaches to Mental Health
Theory and Process of Group Facilitation
Family Systems and Couples

EXPERIENCE THE WORLD

For Bachelor of Biomedical Sciences student, Alyssa Monte, a trip to Cambodia brought home the stark reality of life in the third world.

“The highlight of my trip was on the last day at Saint Paul Institute, where Notre Dame donated hundreds of kilos of rice to the local village. I never knew how something so small could brighten up someone’s day, maybe even their whole year,” said Alyssa.

“The smile on their faces when we handed over the bags was something I will never forget. It went on to show me that a little can go a long way and help so many people in so many ways.”

Notre Dame’s short-term travel opportunities – arranged through our Experience the World Program, offer students the chance to engage in extraordinary community service activities all over the world and in locations as diverse England, Spain, Timor Timor-Leste, Uganda, Malawi and the USA.
Research in the Arts and Sciences has the power to transform and enrich society, create new knowledge, and solve problems. The School of Arts and Sciences embraces scholarly and creative approaches to research, helping us find innovative solutions to local and global challenges.

**HIGHER DEGREES BY RESEARCH**

The School of Arts & Sciences offers challenging and innovative research programs in the humanities, creative arts and sciences. The programs reflect both the enduring strengths of traditional disciplines and the emerging areas of critical enquiry.

Through the research programs you will have access to experienced supervisors and support from the School. All are fully invested in your academic achievement, ensuring you graduate as a passionate, creative and skilful professional.

**HIGHER DEGREES BY RESEARCH:**

- Doctor of Philosophy
- Master of Philosophy
- Master of Arts
- Master of Science
- Doctor of Counselling

**RESEARCH**

Research in the School of Arts & Sciences includes the following areas:

**Studies in Human Society**

- Politics and international relations
- Social justice
- Cultural and gender studies
- Indigenous studies

**History and Archaeology**

**Communications and Creative Arts**

- Literature
- Media and communications
- Performance
- Journalism
- Theatre studies/drama

**Behavioural Science, Counselling and Psychology**

**Environmental and Biological Sciences and Ecology**
DOCTOR OF PHILOSOPHY (PHD)

Duration: Three years full-time or the equivalent part-time

Admission requirements:
An Honours or Master’s level degree, completed at a high standard. Previous research experience is required at Honours, Master of Philosophy or Master’s by coursework level.

Funded by: RTP*

The Doctor of Philosophy offers a three year full-time or equivalent part-time supervised research program leading to a thesis in specific fields of the humanities, social sciences, applied sciences and Aboriginal Studies or creative works and exegesis or by publication. Variations exist in subject areas where creative work or professional practice is assessed. A PhD provides graduates with advanced specialist research training and expert knowledge leading to opportunities in a wide range of academic, research and professional contexts.

Each candidate will be assigned University-based supervisors who will provide support and academic guidance throughout the degree. The candidate’s supervisors will assist the candidate with the preparation of their research proposal. The supervisors will also mentor and direct the candidate throughout the research phase and up to the point the thesis is put forward for examination.

In accordance with the Higher Education Support Act 2003, domestic research students are eligible to have all Higher Degree by Research (HDR) program fees paid for by the Commonwealth Government under the Research Training Scheme (RTP) for the length of their degree. Domestic students are also encouraged to apply for both an Australian Postgraduate Award (APA) and the University Postgraduate Award (UPA) offered through The University of Notre Dame Australia. These scholarships are very competitive and are awarded to students of exceptional research potential. The scholarships are for the purpose of assisting with general living costs for the duration of the research degree.

*RTP: Research Training Program. Domestic applicants are eligible for fee remission as part of the Australian Government’s Research Training Program (RTP). International applicants may apply for a fee-offset on a competitive basis.
**MASTER OF PHILOSOPHY (MPHIL)**

**Duration:** One and a half years full-time or the equivalent part-time

**Admission requirements:**
- A Bachelor’s degree or equivalent

**Funded by:** RTP*

The Master of Philosophy offers an 18-month full-time or equivalent part-time academic program involving coursework and academic research. The program may be undertaken in a focus area of the School of Arts & Sciences.

Candidates undertake coursework courses focused on relevant areas of research methodology. This is accompanied by a supervised research project in a specific academic field. The Master of Philosophy can allow entry into a Doctor of Philosophy (PhD), and advance professional qualifications in specific areas of knowledge.

The coursework comprises research training courses, to be completed alongside the student’s individual research project. The coursework courses will provide opportunities for candidates to formulate substantial elements of their planned research (e.g. topic refinement, identification and justification of the preferred research method(s), preparation of a draft proposal) and to develop personal competencies in critical analysis and scholarly writing relevant to their profession.

An average grade standard of Credit must be achieved in the coursework as a prerequisite for proceeding to the research component.

---

**MASTER OF ARTS**

**Duration:** Two years full-time or the equivalent part-time

**Admission requirements:**
- A Bachelor’s degree or equivalent

**Funded by:** RTP*

The Master of Arts offers a two year full-time or equivalent part-time supervised program leading to a thesis or creative work and exegesis or by publication within specific fields of humanities and social science. The Master of Arts is designed for candidates who have completed coursework studies sufficient for a singular research program to be undertaken. This award provides graduates with specialised research training and knowledge.

---

*RTP: Research Training Program. Domestic applicants are eligible for fee remission as part of the Australian Government’s Research Training Program (RTP). International applicants may apply for a fee-offset on a competitive basis.
MASTER OF SCIENCE

Duration: Two years full-time or the equivalent part-time

Admission requirements:
A Bachelor’s degree or equivalent

Funded by: RTP*

The Master of Science aims to expand knowledge, research skills and intellectual inquiry, culminating in a research thesis within which a student demonstrates their capacity to conceive, design and complete independent yet supervised research. The research project would likely relate to areas of research direction within the School, and the expertise of staff. This award provides graduates with specialised research training and knowledge.

DOCTOR OF COUNSELLING

Duration: Three years full-time or the equivalent part-time

Admission requirements:
An Honours or Master’s level degree, completed at a high standard. Previous research experience is required and at least three years of professional experience is required for the professional doctorate.

Funded by: RTP*

The Doctor of Counselling offers an applied three-year or equivalent program leading to a thesis. The Doctor of Counselling seeks to bridge the theory-practice gap and make a practical contribution to the area of counselling and professional knowledge as well as make a possible contribution to current scholarly understanding. The Doctor of Counselling combines research training coursework with the development of the thesis.

*RTP: Research Training Program. Domestic applicants are eligible for fee remission as part of the Australian Government’s Research Training Program (RTP). International applicants may apply for a fee-offset on a competitive basis.
Institutes for scholarship and research

THE UNIVERSITY IS COMMITTED TO PROVIDING EXCELLENCE IN TEACHING, SCHOLARSHIP AND RESEARCH, AND ESTABLISHING PROJECTS AND PROGRAMS TO BENEFIT THE COMMUNITY. THIS COMMITMENT UNDERPINS THE WORK OF NOTRE DAME’S NATIONAL RESEARCH INSTITUTES.

Research outcomes that improve the physical, mental, social and spiritual wellbeing in the community are the key focus of the Institute for Health Research (IHR), established in 2009.

Based on the Fremantle Campus, the Institute draws on clinical expertise from the Schools of Health Sciences, Medicine, Nursing & Midwifery and Physiotherapy.

The IHR also actively engages in research opportunities on the Broome and Sydney Campuses and collaborates with researchers from other tertiary institutions, government and non-government organisations and hospitals both nationally and internationally.

Based in the North West of Western Australia, Broome’s Nulungu Research Institute focuses on three core research themes—country, health and wellbeing and education – within a context of valuing community-based Indigenous knowledge and a mission of reconciliation.

A key feature of Nulungu’s research profile is the extent of collaboration with national and international academic institutions, teaching and research communities, government and industry.

Since it was established in 2008, the Nulungu Research Institute has undertaken more than 250 projects, producing ground-breaking research outcomes that over time are expected to result in profound change in the community.

Notre Dame’s Institute for Ethics & Society (IES) was established on the Sydney Campus in 2009 to foster greater ethical awareness in professional and social life.

Key areas of focus include Applied and Professional Ethics, Ethics Education, Bioethics and Health Care, Religion and Global Society and Indigenous Research and Ethics.

The IES is also committed to promoting a rigorous and open conversation about the variety of ethical issues facing society today and to sharing the resources of the Catholic intellectual tradition in the public arena.
Succeed today – and tomorrow.

NOTRE DAME’S COMMITMENT TO PASTORAL CARE AND A PERSONALISED EDUCATION EXPERIENCE DOESN’T JUST BEGIN WHEN COMMENCING STUDY. IT BEGINS WITH OUR EARLY OFFER PROGRAM AND BROADER ADMISSIONS PROCESS WHICH IS CENTRED ON YOU.

Focusing on your personal aspirations, Notre Dame helps you succeed throughout your degree program and beyond, equipping you with practical skills and knowledge to help you enjoy a successful career.
NOTRE DAME STUDY CENTRE

The Notre Dame Study Centre is committed to equality of opportunity for all students regardless of social or cultural background and provides support for students, not just at the beginning of their academic careers, but all the way through to graduation.

ACADEMIC SUPPORT

Notre Dame helps students formulate their goals and develop the skills and confidence they need to attain them. With a strong emphasis on ‘the whole student,’ and supported by a dedicated team of lecturers and tutors, the Notre Dame Study Centre offers a range of educational and study programs, as well as help for students with disability requirements.

MENTOR PROGRAM

Students are invited to join Notre Dame’s Mentor Program. The Program aims to smooth the transition to university life by linking first-year students with student mentors and by providing opportunities for social interaction to ensure all students make a seamless adjustment to uni life.

EARLY OFFER PROGRAM

Notre Dame introduced the Early Offer Program in 2006 to acknowledge and reward the achievements of outstanding Year 12 students by simplifying the application process. One of the key benefits is to free prospective students from additional stress and give them confidence as they prepare for their final WACE examinations.

Students who are selected for the Early Offer Program are required to demonstrate that they:
› have exceptional personal or leadership qualities and are motivated to study;
› are active members of their church, school and/or community; and
› have a predicted ATAR (based on their best four eligible ATAR subjects) of 90 or above.

Candidates who are not successful in the Early Offer Program will automatically be considered for the November and January offers, and do not need to submit another application form. Early offer program applications are due at the end of July for admission in the following year. For more information, please visit notredame.edu.au/study/early-offer.
Scholarships making dreams happen

NOTRE DAME OFFERS A RANGE OF SCHOLARSHIP PROGRAMS FOR UNDERGRADUATE STUDENTS.

Funded by the University, industry, individuals and non-profit organisations, scholarships are available to prospective and current students.

While the selection criteria vary for each scholarship, community involvement and leadership roles, as well as academic performance and financial hardship, are considered as part of the application process.

GENERAL SCHOLARSHIPS
▷ Academic Merit Scholarships
▷ The Catenian Association (Province 20) Youth Scholarship
▷ The Catholic Women’s League of Western Australia (Inc.) Scholarship
▷ The Leonard & Ursula Keating Scholarship
▷ The Monsignor E. Sullivan Scholarship
▷ The Chisholm Catholic College Scholarship
▷ The Shire of Christmas Island Scholarship
▷ The Vice Chancellor’s Humanitarian Scholarship
▷ The Fr PJ McGuire Scholarship
▷ The Holy Rosary Parish of Nedlands Scholarship
▷ The John Joseph Magee PSM Scholarship
▷ The Bupa International Student Award
▷ The Associates Rugby Union Football Club Scholarship

For more information visit notredame.edu.au/scholarships
Investing in your future

NOTRE DAME IS COMMITTED TO MAKING ALL ITS PROGRAMS AS AFFORDABLE AND ACCESSIBLE AS POSSIBLE, WITH ITS FEE STRUCTURE REFLECTING THIS GOAL.

HOW FEES ARE CALCULATED
Fees are calculated based on the discipline and study load of each course undertaken by students. For the majority of programs, courses studied do not all fall within the same discipline. For example, a student enrolled in a Bachelor of Education undertakes courses of study that are classified as ‘education’ and some that are classified as ‘humanities’. In this example, the fee for the humanities courses is calculated against the Humanities discipline, while the fee for the education courses is calculated against the Education discipline. To access individual course costs please visit the University’s website.

COMMONWEALTH SUPPORTED PLACES / HECS-HELP
Notre Dame offers Commonwealth Supported Places (CSP) in selected undergraduate programs (see the program table for details). Australian citizens, holders of permanent humanitarian visas and eligible New Zealand citizens who are allocated a CSP are able to access HECS-HELP and defer all or part of their tuition fees through a Federal Government loan.

All Indigenous students of Notre Dame are able to access Commonwealth Supported Places and HECS-HELP for all programs.

FEE PAYING PLACES / FEE-HELP
Notre Dame offers full fee paying places for undergraduate domestic students in a number of programs. Australian citizens, permanent humanitarian visa holders and eligible New Zealand citizens are able to access the FEE-HELP loan scheme. This program allows eligible students to borrow all or part of their tuition fees from the Federal Government. A loan fee of 25 percent is added by the Federal Government.

HOW WILL I PAY?
The HECS-HELP loan scheme assists eligible students, who have been allocated a Commonwealth Supported Place, in paying their tuition fees. The FEE-HELP loan scheme assists eligible students, who have been allocated a Fee Paying Place, in paying their tuition fees. Repayments in both schemes can be deferred until students are in the workforce. Students should consult studyassist.gov.au for further information and up to date eligibility requirements.

ADDITIONAL STUDY COSTS
The additional costs of study will vary from student to student. Additional costs include textbooks, uniforms, accommodation, public transport, photocopying, stationery and food.

FINANCIAL ASSISTANCE
Austudy, Abstudy and Youth Allowance schemes are operated by the Australian Government and provide financial assistance to eligible students. For further information, please contact Centrelink on 13 24 90 (Youth Allowance and Austudy), or 13 23 17 (Abstudy) or visit www.humanservices.gov.au.

For more information relating to fees, please see notredame.edu.au/study/fees.
We consider the whole person

THAT’S WHY NOTRE DAME’S COMPREHENSIVE ADMISSIONS PROCESS GOES BEYOND THE USE OF A SINGLE SCORE.

THERE ARE TWO CATEGORIES OF UNDERGRADUATE APPLICANTS:

1. Recent secondary education (within the past two years)
   a. School leaver students who are currently in Year 12 sitting the Western Australian Certificate of Education (WACE), International Baccalaureate (IB) or equivalent; or
   b. Applicants who have completed Year 12 or equivalent within the last two years and are using these results to gain admission into the University.

2. Mature-age applicants
   a. Higher education study from other tertiary institutions (including bridging or enabling programs);
   b. Vocational education and training (VET) study from TAFEs or other Register Training Organisations;
   c. Work and life experience.

UNIQUE APPROACH TO UNIVERSITY ADMISSION

Notre Dame’s admissions process considers every applicant on an individual basis, which is, like the Notre Dame study experience, focused on the whole person. Entry is based on: your personal qualities, motivation to study and academic potential; contribution to school, church or community life; academic record; and an interview with an academic member of staff at Notre Dame.

HOW TO APPLY

Applications must be made directly to Notre Dame. There is no application fee.
If you have any queries please visit notredame.edu.au or contact the Admissions Office:
21 High Street, Fremantle  T: 9433 0537  E: admissions@nd.edu.au

INTERNATIONAL STUDENTS

The following categories of applicants are considered to be domestic applicants. All other applicants are considered to be international students.

› Australian citizen
› Australian Permanent Resident*
› Australian Permanent Humanitarian Visa Holder
› New Zealand citizen
› Diplomatic or consular representative of New Zealand, or the spouse or dependent relative of such a representative

*A Provisional Resident Visa or Bridging Visa is not a form of permanent residency.

The process of applying to study at Notre Dame for an international student is different from that of domestic students. If you are an international student, please contact the Prospective Students Office on 9433 0533 or email: future@nd.edu.au.

POSTGRADUATE ADMISSION

Please see notredame.edu.au for details.
Admissions criteria for Notre Dame:

Personal qualities and motivation to study
Contribution to church, school and/or community
Academic record
Interview

KEY

**DURATION (YEARS)**
Normal time taken to complete a program. May vary depending on number of enrolled courses per semester.

**STUDY TYPE**
C+D Coursework and dissertation

**MODE OF STUDY**
I Internal
FT Full-time
PT Part-time

**HECS-HELP AVAILABLE**
A number of Commonwealth Supported Places (HECS-HELP) are available to Australian citizens for these programs, and subject to the availability of places.

**INDICATIVE CSP FEE 2018**
The figure quoted is the Indicative Annual 2018 Commonwealth Supported Places fee for domestic students. At the time of publication, 2019 fees were yet to be determined.

**FEE HELP LOAN SCHEME**
The Commonwealth Government Loans Scheme (FEE-HELP) is available for Australian citizens.

**INDICATIVE ANNUAL FEE FOR 2018**
The figure quoted is the Indicative Annual 2018 full fee for domestic students. At the time of publication, 2019 fees were yet to be determined. The exact 2019 fee for an individual student will depend on the mix of courses studied.

**INDICATIVE MINIMUM ATAR**
Although the University has established a minimum ATAR for its programs, in some cases the ability of a person to succeed in any given program may be assessed using the University’s other entry requirements.

**INTERNATIONAL BACCALAUREATE / IELTS**
International and interstate qualifications are assessed on a case-by-case basis. The scores listed are the indicative minimum entry requirements only. International Baccalaureate students may apply for advanced standing.

**STAT**
The Special Tertiary Admissions Test (STAT) may be used alone by mature-age students to meet minimum academic entry requirements for this program. The number indicated is the minimum score required in the overall and written English section of the test.

**DISCLAIMER**
The offering of any program by the University is subject to (a) to the Disclaimer set out below; and (b) the University receiving appropriate enrolment numbers in each program. The University may cancel any program if appropriate enrolment numbers are not received in any given year. Please refer to the University website for the most up-to-date fees.

DISCLAIMER – © 2018 | Under the Higher Education Support Act (2003), The University of Notre Dame Australia is obliged to provide students with a program assurance arrangement. Details of this arrangement are outlined on the University’s web page. The information in this guide is correct at the time of printing but may be subject to change. Applicants are strongly advised to contact the University and check the University website for current information. The University reserves the right to withdraw, alter or vary any program, course of study, program content, assessment method or tuition fee that it offers or to vary program arrangements or impose limitations on enrolment. The University has obtained accreditation information in this guide from professional bodies offering accreditation for registration into a profession. Applicants are strongly advised to obtain current accreditation information by contacting the University, checking the University website and contacting professional bodies. The University of Notre Dame Australia will not be liable to you or to any other person for any loss or damage (including direct, consequential or economic loss or damage) however caused, including by negligence or otherwise, which may result directly or indirectly from or the use of, or reliance upon, this guide.
