Welcome to The University of Notre Dame Australia’s 2019 Undergraduate Guide.

Within these pages, we offer you a snapshot of our very special Australian university – a university which extends from the west coast in the beautiful and historic city of Fremantle in Western Australia, to the north-west town of Broome, and across the continent to our Campus located in the heart of the city of Sydney.

Notre Dame is unique for a number of reasons:

› As Australia’s first Catholic university, Notre Dame follows the traditions and practices of Catholic higher education which, for centuries in many countries across the world, has offered leadership in university education.

› We are committed to providing a personalised university education, underpinned by pastoral care and support for all our students.

› Our admissions process focuses on each applicant as an individual. We use a broad-based assessment of suitability which looks at your past achievements and your potential; we aim to assess your capacity to complete your chosen course and to become a valuable contributing member of our community.

› We aim to educate you for life by giving you a broad liberal arts base through our Core Curriculum units, coupled with a powerful combination of theoretical knowledge and practical and professional skills in your chosen degree.

**BACHELOR OF PHILOSOPHY**

**DURATION:** THREE YEARS FULL-TIME  
**LOAN SCHEME:** FEE-HELP  
**STUDY MODE:** FULL-TIME, PART-TIME

Challenge your thinking, beliefs and values with a degree in Philosophy. Through tackling the most fundamental questions of existence, you will sharpen invaluable skills required for success in any field – from politics, business and advocacy to research, teaching and academia.

The three-year Bachelor of Philosophy degree embraces a historical approach to provide a critical perspective on the philosophical issues that arise in every aspect of modern life, including technology, health, politics, ethics, history, religion and culture. Your subjects will consider art and aesthetics, metaphysics, logic, political philosophy, language, science and education.

**BACHELOR OF THEOLOGY**

**DURATION:** THREE YEARS FULL-TIME  
**LOAN SCHEME:** FEE-HELP  
**STUDY MODE:** FULL-TIME, PART-TIME

Education in Theology explores, among other subjects, important issues such as the nature of God, the kind of God revealed for us in Jesus Christ, the nature of personal identity and of humanity, human origins and destiny.

The Bachelor of Theology is a three-year program designed to provide students with grounding in Biblical and Theological Studies and associated disciplines. It is intended for those who wish to pursue personal and spiritual growth and for those who have specific vocational and ministerial goals. Students can also study Theology as a major or minor in the Bachelor of Arts.

Theology is the necessary qualification for those wishing to exercise various ministries within the Christian community and to contribute to the work of the Church. It is also the necessary basis for graduate theological study and research.

**BACHELOR OF PHILOSOPHY / BACHELOR OF THEOLOGY**

**DURATION:** FIVE YEARS FULL-TIME  
**LOAN SCHEME:** FEE-HELP  
**STUDY MODE:** FULL-TIME, PART-TIME

Engaging in subject areas as diverse as Sacramental and Moral Theology, Critical Thinking, Logic, Metaphysics and Philosophy of the Human Person, students of philosophy and theology learn to think both critically and creatively. Metaphysics takes human thought to its heights, and helps us to understand and assess big picture concepts of reality. These then inform how we understand what it means to be human. Theology amplifies these concepts, by considering reality in light of the existence of God and the influence of divine grace in human life.

This double degree provides a comprehensive education in both philosophy and theology. In this degree, not only will you learn about philosophy and theology within the Western tradition of thought, but you will also graduate knowing how to think, reason and argue at an advanced level – skills that are in high demand in any career path you choose.

“Graduates who have studied philosophy and theology are armed with critical thinking skills and the ability to think creatively. They are uniquely placed to make a difference in the world.”  

Professor Renée Köhler-Ryan  
Dean, School of Philosophy & Theology
