

Feedback Studio Features

Feedback Studio

Feedback Studio has a variety of features available to help you mark and provide feedback to students online.

To use Feedback Studio you will need to set up a Turnitin. Once set up, click on the **View Assignment** link (see image on the right) then click on any student submission to open Feedback Studio in a new window.

phabet: photo-visual reading (Snyder, 1999). The present article suggests that in working with graphic user interfaces, users employ a unique form of digital literacy—photo-visual literacy—that helps them to “read” intuitively and freely, and to understand the instructions and messages represented visually. People with photo-visual literacy have good visual memory and strong intuitive-associative thinking, which help them decode and understand visual messages easily and fluently.

The nature of the photo-visual “reading” process, the performance of learners with tasks that involve photo-visual literacy, as well as their attitude towards photo-visual reading are subjects that have attracted numerous studies. Springer (1987) and Aspillaga (1996) showed that photo-visual work in graphic user interfaces greatly reduced the time required to operate a digital environment, thereby demonstrating the importance of taking such literacy into account in user interface design. Mason (2002) suggested a model for hypertext writing and reading, using different methods for visual presentation of digital data, and McLoughlin and Hutchinson (2002) described the advantages of a visual digital environment for successful foreign language learning.

In light of the recognition of the value of photo-visual communication

Features of Feedback Studio

Feature	Icon	Description of feature
Student name and title of assignment		
Mark/score		Enter a number out of the total
Left arrow		Click on the left arrow to open the previous submission
List of submissions		Click on the dropdown menu to see list of all submissions. You can select the submission you wish to view using this menu.
Right arrow		Click on the right arrow to open the next submission
Turnitin help		Opens up the Turnitin help files
Toggle page navigation		Opens a left hand menu to toggle between pages of the submission
Active layers		Lists available layers and provides you an option to hide/show the layers
instructor feedback layer		Click to enable online marking e.g. QuickMarks, commenting tools, rubrics so on
QuickMarks		Opens QuickMarks menu
Feedback summary		Opens commenting tools menu
Rubric/forms		Opens rubrics menu
Similarity layer		Click to show similarity report and associated features to customise the report
Match overview		Indicates the similarity score
All sources		Listing of all sources that have matched content to this submission. You can choose to exclude sources from the similarity report from here.

Filters and settings		Use filters to customise the similarity report e.g. exclude quotes
Excluded sources		Listing of all excluded sources
Download		Click to download the current view of the submission, the digital receipt or the original submitted file
Submission information
