

Major Human Biology

As at: August 2015 Updated by: S Kelly

Major Title:	Human Biology
Owned by:	School of Arts and Sciences
Campus:	Fremantle

This Major (8 courses per Major) is available within the following degree/s and is comprised of these SPECIFIC COURSES. All courses are 25 units of credit.

Title of degree:	Comprised of specific courses as follows:
Bachelor of Science and ANY other degree where program regulations allow	<p><i>Students must complete the following FIVE (5) courses:</i></p> <p>BIOL1250 Molecular and Cell Biology BIOL3500 Pollution and Ecotoxicology HLTH1000 Human Structure and Function HLTH1030 Anatomy and Physiology of Body Systems HLTH2300 Microbiology</p> <p><i>Plus any THREE (3) of the following courses:</i></p> <p>HLTH2210 Biochemistry HLTH3100 Immunology HLTH3250 Infectious Disease (<i>pre-requisite HLTH2210</i>) HLTH3310 Reproductive Biology HLTH3400 Human Genetics HLTH3450 Neuroscience</p>

Please check pre-requisites with the course coordinators in the School of Health Sciences.

**The Bachelor of Science is undergoing a restructure in 2018 for 2019. This may affect the courses on offer in 2019. Students currently undertaking the degree and, in particular, those enrolled in the Human Biology Major or Minor will be guided on how to complete their studies.

Minor Human Biology

As at: August 2015 Updated by: S Kelly

Minor Title:	Human Biology
Owned by:	School of Arts and Sciences
Campus:	Fremantle

This Minor (6 courses per Minor) is available within the following degree/s and is comprised of these SPECIFIC COURSES. All courses are 25 units of credit.

Title of degree:	Comprised of specific courses as follows:
Bachelor of Science and ANY other degree where program regulations allow	<i>Students must complete the following TWO (2) courses:</i> HLTH1000 Human Structure and Function HLTH1030 Anatomy and Physiology of Body Systems <i>Plus any FOUR (4) of the following courses:</i> HLTH2300 Microbiology HLTH3310 Reproductive Biology HLTH3250 Infectious Disease (<i>pre-requisite HLTH2210</i>) HLTH3400 Human Genetics HLTH3450 Neuroscience BIOL3500 Pollution and Ecotoxicology

Please check pre-requisites with the course coordinators in the School of Health Sciences.

** The Bachelor of Science is undergoing a restructure in 2018 for 2019. This may affect the courses on offer in 2019. Students currently undertaking the degree and, in particular, those enrolled in the Human Biology Major or Minor will be guided on how to complete their studies.

Specialisation Human Biology

As at: July 2012

Updated by:

Annabeth Kemp

Specialisation Title:	Human Biology
Owned by:	School of Arts and Sciences
Campus:	Fremantle

This Specialisation (4 courses per Specialisation) is available within the following degree/s and is comprised of these SPECIFIC COURSES. All courses are 25 units of credit.

Title of degree:	Comprised of specific courses as follows:
Bachelor of Science/Graduate Diploma of Education (Program suspended: no new enrolments from 2013)	<p><i>Students must complete the following TWO (2) courses:</i></p> <p>HLTH1000 Human Structure and Function HLTH1030 Anatomy and Physiology of Body Systems</p> <p><i>Plus any TWO (2) of the following courses:</i></p> <p>HLTH2300 Microbiology HLTH3310 Reproductive Biology HLTH3250 Infectious Disease (<i>pre-requisite HLTH2210</i>) HLTH3450 Neuroscience BIOL3500 Pollution and Ecotoxicology</p>

** The Bachelor of Science is undergoing a restructure in 2018 for 2019. This may affect the courses on offer in 2019. Students currently undertaking the degree and, in particular, those enrolled in the Human Biology Major, Minor or Specialisation will be guided on how to complete their studies.
