

The University of Notre Dame Australia uses an encrypted wireless network, to ensure that all information is protected.

To access the wireless network, you must have an active staff or student username and password. Access to the university Wi-Fi is granted under the same policies as accessing our wired network.

Unfortunately, we are unable to list all available mobile devices for WiFi configuration. If your device is not listed, please refer to the individual device instructions provided by the manufacturer.

Default information required to access our secure network are:

- **Notre Dame Staff/Student ID**
e.g. 32001234 for students or 31001234 for staff
- Your University account **password**
This is the same password to log onto a campus computer

Network details for windows and apple devices are:

Network Name: UNDA-WiFi
Security Type: WPA2-Enterprise
Encryption Type: AES

Network details for Chrome and Android devices are:

SSID: UNDA-WiFi
EAP Method: PEAP
Phase 2 authentication: MSCHAPv2
Server CA Certificate: Default
User Certificate: None Installed
Anonymous Identity: Empty

Please kindly contact your campus Service Desk if you require assistance.
