

At The University of Notre Dame Australia your tuition fees vary depending upon your program and the courses you take within that program. All courses are allocated a discipline area and a study load that are used to determine the cost of the course. The fees shown in this document are indicative of a full-time study load in the specified discipline areas. Fees will vary based on the number and type of courses chosen. For assistance, please contact the International Office: international@nd.edu.au.

HOW FEES ARE CALCULATED

Fees are calculated based on the discipline and study load of the courses undertaken by students. For the majority of programs, courses studied do not all fall within the same discipline. For example, if you are enrolled in a Bachelor of Education, you may undertake some courses that are classified as 'education' and some that are classified as 'humanities'. In this example, your tuition fees for the humanities courses will be calculated against the Humanities discipline, while the education courses will be calculated against the Education discipline.

PAYMENT OF FEES

All fees for the first six months, including Overseas Student Health Cover (OSHC) and Enrolment Fees, are to be paid at least four weeks prior to the start of the first semester. Second and subsequent years' tuition fees are payable each semester, two weeks prior to the start of semester. Tuition fees may vary in subsequent years. The University does not offer payment by instalment or extensions to payment due dates.

APPLYING FOR A STUDENT VISA

A student visa is required before entering Australia and prior to the commencement of your program. Please follow the steps below when applying for a student (temporary) visa.

- The 'electronic Confirmation of Enrolment' (eCoE) must be obtained before applying for a visa. This will be provided by the University once an applicant has accepted their letter of offer and fee payment has been received
- Apply for your student visa online at homeaffairs.gov.au. You will need to create an account (known as an Immi Account) to apply for your student visa with this online application system.

MAINTAINING YOUR STUDENT VISA

It is important that you are aware of the following conditions while on a student visa:

- The student visa must be valid and not have expired.
- You must maintain your OSHC for the entire period of your student visa.
- You must maintain full-time enrolment, satisfactory academic progress and attendance at the University.
- Student visa holders can undertake a maximum of 40 hours of paid work per fortnight when your program is in session. There is no limit to the number of hours of work for postgraduate research students.
