3 PURPOSE

These Program Regulations set out the approved requirements for the Bachelor of Rehabilitation Science.

4 OVERVIEW

4.1 Campus Availability
The Bachelor of Rehabilitation Science has been approved for delivery on the Fremantle Campus only.

4.2 Student Availability
The Bachelor of Rehabilitation Science is available for enrolment to domestic Students.

4.3 Australian Qualifications Framework
The Bachelor of Rehabilitation Science is a Level 7 AQF qualification.

4.4 Duration
The Volume of Learning for the Bachelor of Rehabilitation Science is three (3) years of equivalent full-time study.

A student is not able to enrol on a part time basis.

An accelerated mode is not available for these Awards

4.5 Maximum Duration
The maximum period of time within which a student is permitted to complete the Bachelor of Rehabilitation Science is two (2) years (including any periods of approved leave of absence) from the date on which they were first enrolled into the program by the University.

4.6 Study Mode
The Bachelor of Rehabilitation Science is offered in Internal Study mode only.

4.7 Professional Accreditation
External accreditation requirements are not applicable to this award.

5 ENTRY REQUIREMENTS

5.1 University Admission Requirements
To be eligible for general admission to The University of Notre Dame Australia, all applicants must meet the University’s minimum requirements for admission. The requirements for admission are detailed in the University’s Policy: Admissions.

5.2 Specific Program Requirements for Admission
The following pre-requisites apply to this award:

5.2.1 Entry to this degree requires successful completion of a minimum of 375 units of credit (excluding core curriculum courses) of the parent degree, Bachelor of Physiotherapy from The University of Notre Dame Australia.

6 PRACTICUM OR INTERNSHIP REQUIREMENTS

6.1 There are no Practicum or Internship requirements in this award.
7 PROGRAM REQUIREMENTS

7.1 Program Learning Outcomes

Upon successful completion of the Bachelor of Rehabilitation Science graduates will be able to:

1. Demonstrate effective verbal and written communication skills across a range of contexts
2. Demonstrate professional and ethical behaviour, demonstrating respect and sensitivity to people with diverse social, cultural, and spiritual beliefs
3. Recognise limitations to current knowledge, skills and abilities through reflection and demonstrate commitment to lifelong learning
4. Recognise the need for an evidence based approach to healthcare management developed through the use of contemporary information communication technology and management skills by accessing and critically appraising best available evidence
5. Demonstrate a broad range of theoretical knowledge and clinical skills to contribute towards safe, effective healthcare management in collaboration with health professionals across different healthcare contexts
6. Contribute to health promotion and management strategies recognising the need for client-centred goals and empower clients to participate in healthcare decision making
7. Contribute to healthcare delivery through effective inter-professional communication and working effectively with individuals and in teams
8. Articulate objective and universal truth, appreciate the intrinsic dignity of the human person, and exhibit good intellectual, moral and theological habits

7.2 Required Courses

To be eligible for the award of Bachelor of Rehabilitation Science students must complete 600 Units of credit, comprising:

(a) Successful completion of 375 units of credit of the parent degree Bachelor of Physiotherapy as governed by the Bachelor of Physiotherapy Program Regulations.

(b) Core Curriculum courses totalling 75 units of credit as specified by the General Regulations of the University.

(c) Courses to a minimum of 150 units of credit selected from courses available in the School of Physiotherapy (Appendix A), or as approved by the Dean in accordance with Regulation 3.1.1 (d) and 3.4 of these Regulations.

(d) Prior to entry into the Bachelor of Rehabilitation Science, a student may have completed defined clinical education courses within the parent degree, and these may be used as courses to satisfy units of credit for entry or to satisfy units of credit within the Bachelor of Rehabilitation Science, but a student may not enrol in further physiotherapy clinical education courses to complete this degree.

7.3 Elective Courses

There are no elective courses in the Bachelor of Rehabilitation Science.

7.4 Course substitutions

Course substitutions, where permitted, must be approved by the Dean. Where courses are chosen from another School of the University, the student may need to satisfy the pre-requisites or co-requisites for that course and approval of the Dean from the other School is required prior to enrolment in that course.
8 DEFINITIONS

For the purpose of these Regulations, the following definitions are available in the General Regulations.

- Leave of Absence
- Major
- Units of Credit
- Pre-requisite Course
- Minor
- Elective
- Co-requisite Course
- Specialisation
- General Elective
APPENDIX A: Bachelor of Rehabilitation Science 3542

(a) 375 units of credit from the parent degree, Bachelor of Physiotherapy as governed by the Program Regulations of that degree.
