

Staff Wireless: Setup Microsoft Surface Pro

The University of Notre Dame Australia uses an encrypted wireless network, to ensure that all information is protected.

To access the wireless network, you must have an active staff or student username and password. Access to the university Wi-Fi is granted under the same policies as accessing our wired network.

1. Click the *Wireless Network* icon on the system tray.
Wireless should show Available
2. Choose UNDA-WiFi
3. Check *Connect Automatically*
4. Click **Connect**

5. When prompted, enter your **Notre Dame Staff/Student ID**
e.g. 32001234 for students or 31001234 for staff
6. Enter your **password**
This is the same password to log onto a campus computer

7. Click **Accept** to the *Trust Certificate*
If the authentication is successful, the UNDA-WiFi network shows as connected.

If you have any issues connecting to the wireless network, try manually creating a network profile, to do this complete the following steps.

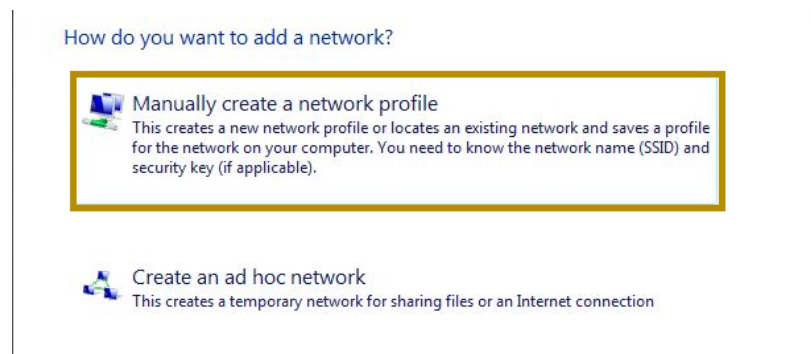

1. Click on the **wireless icon**
located near the right-hand side of the taskbar (near the clock)
2. Select **Open Network and Sharing Centre**

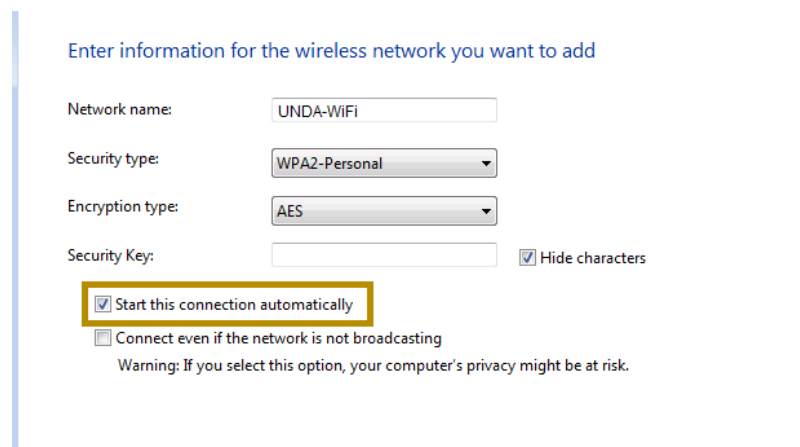

3. Select **Manage wireless networks**
4. Click **Set up a new connection or network**

3. Select **Add**
4. Select **Manually create a network profile**

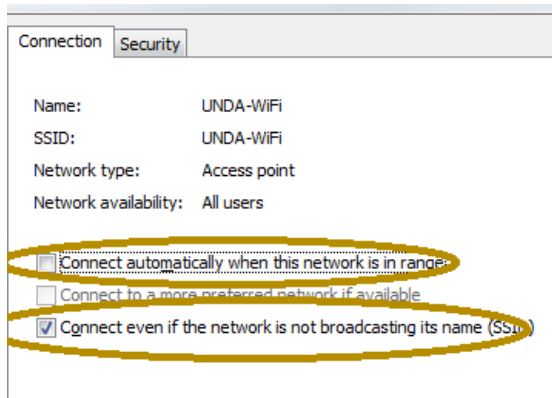

5. Enter the details
Network Name: UNDA-WiFi
Security Type: WPA2-Enterprise
Encryption Type: AES
6. Untick **Start this connection automatically**
7. Click **Next**

8. Click on **Change connection settings**

9. Untick “Connect automatically” and Tick “Connect even if the network is not broadcasting” as shown below, and click “OK.”

Connection Security

Name: UNDA-WiFi

SSID: UNDA-WiFi

Network type: Access point

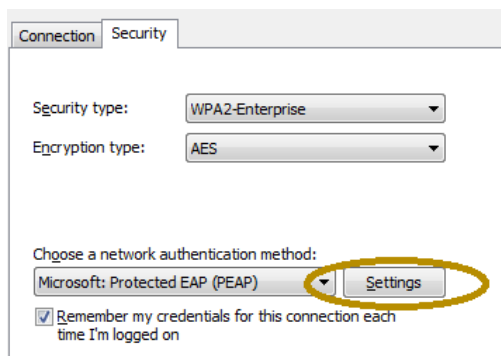

Network availability: All users

☐ Connect automatically when this network is in range

☐ Connect to a more preferred network if available

☒ Connect even if the network is not broadcasting its name (SSID)

10. Open “Security” tab, and Click the “Settings”.

Connection Security

Security type: WPA2-Enterprise

Encryption type: AES

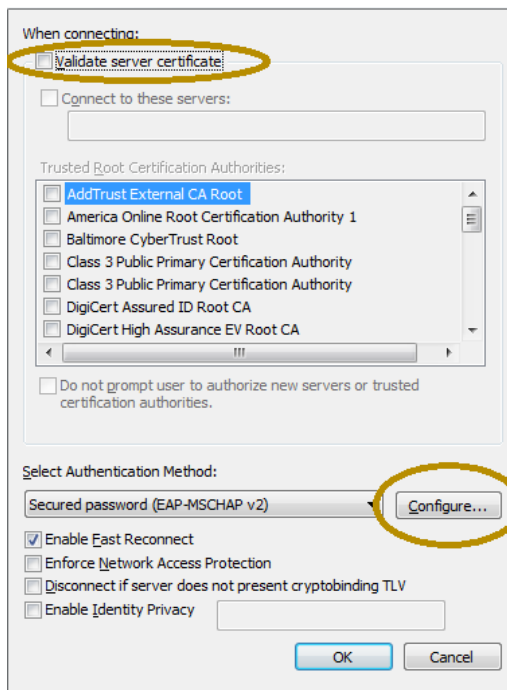

Choose a network authentication method:

Microsoft: Protected EAP (PEAP) Settings

☒ Remember my credentials for this connection each time I'm logged on

11. Untick Validate server certificate

12. Click Configure

When connecting:

☐ Validate server certificate

☐ Connect to these servers:

Trusted Root Certification Authorities:

- ☒ AddTrust External CA Root
- ☐ America Online Root Certification Authority 1
- ☐ Baltimore CyberTrust Root
- ☐ Class 3 Public Primary Certification Authority
- ☐ Class 3 Public Primary Certification Authority
- ☐ DigiCert Assured ID Root CA
- ☐ DigiCert High Assurance EV Root CA

☐ Do not prompt user to authorize new servers or trusted certification authorities.

Select Authentication Method:

Secured password (EAP-MSCHAP v2) Configure...

☒ Enable Fast Reconnect

☐ Enforce Network Access Protection

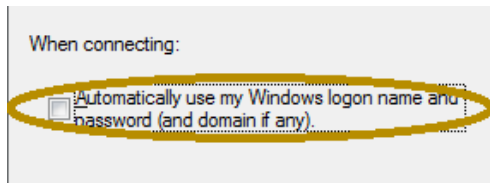

☐ Disconnect if server does not present cryptobinding TLV

☐ Enable Identity Privacy

OK Cancel

11. Untick Automatically use my Windows login name and password

12. Click **OK** until you have closed out each window.

1. Click the *Wireless Network* icon on the system tray.
2. Choose the **UNDA-WiFi**
3. Check ***Connect Automatically***
4. Click **Connect**

5. When prompted, enter your **Notre Dame Staff/Student ID**
e.g. 32001234 for students or 31001234 for staff
6. Enter your **password**
This is the same password to log onto a campus computer

7. Click **Accept** to the *Trust Certificate*
If the authentication is successful, the UNDA-WiFi network shows as connected.

If you can see, the network is connected; however, you are unable to search the internet. Please speak with the IT Service Desk.

Please kindly contact your campus Service Desk if you require assistance.
