

A SPIRITUALITY OF CARE

IES Seminar featuring the Sisters of Life & IES Researchers Dr Kirsty Beilharz & Xavier Symons

The Institute for Ethics & Society is delighted to host a public seminar on A Spirituality of Care.

The Sisters of Life are an active-contemplative religious community founded in New York with the mission of promoting a culture of life based on the sacred dignity and uniqueness of each person.

In this seminar the Sisters of Life will share stories of how doctors and nurses impacted the lives of the women they have served.

Drawing on new research at the intersection of bioethics, theology, and normative ethics, IES researchers discuss current research projects whilst also outlining some challenges in the field of bioethics.

All welcome to join for
10:00am Mass at Sacred
Heart Church Darlinghurst

Seminar Time:
