The screenshot shows a Power BI report viewer interface. The top navigation bar includes the University of Notre Dame logo, 'Power BI UAPPO Testing', and the report title 'EFTSL Target vs Baseloads' with a 'Data updated 6/7/21' indicator. A search bar and user profile icon are on the right. The left sidebar shows a 'Pages' list with 'Home' selected. The main content area displays the report header with the University of Notre Dame logo and title. Below this, a metadata section lists: Title: University Student Load to Target; Subcategory: Enrolments; Frequency: Weekly; Description: Student EFTSL to Targets by Program Level, Campus, Student Type, Citizen Type, Faculty, Program School and weekly extract to target from same time last year; Last Refreshed: 2/06/2021. A bar chart icon labeled 'EFTSL vs Target' is shown. At the bottom, a 'CONFIDENTIALITY STATEMENT' is present, stating that information is for internal use only and not to be distributed externally.
