

Guide to Completing the Notre Dame Medicine Portfolio 2020 Entry Year

Introduction

The University of Notre Dame Australia welcomes your application to study medicine at its Sydney or Fremantle School of Medicine. The Notre Dame Portfolio is integral to our selection process, contributing to the ranking of applicants for offers of interview and place. It is, therefore, important to take the time to complete the form carefully.

The Notre Dame Portfolio gives you an opportunity to submit details of personal and community experience and activities in support of your application. You must, however, include all such details in the Notre Dame Portfolio itself. Details submitted separately will not be accepted.

The GEMSAS application form will incorporate the Notre Dame Portfolio if you list UNDA as one of your preferences. All applicants who rank The University of Notre Dame Australia as a preference, irrespective of which preference it is, must complete both the GEMSAS and Notre Dame Portfolio components of the application process. Applicants who fail to complete all requirements of the Notre Dame Portfolio will not be considered.

This guide has been developed to help you complete the Notre Dame Portfolio. It is not exhaustive and simply indicates of the type of information that can be included. The Notre Dame Portfolio may take time to complete and it is recommended that applicants commence preparation early and submit well before the closing date.

A Notre Dame Portfolio template will be available from the Notre Dame website from 30 April 2019. Applicants are strongly encouraged to review the template alongside this guide.

To avoid any potential loss of data due to unexpected session closure, you may wish to complete each segment of your portfolio offline and copy it into the live application once you are satisfied with your work.

NB: If the data you are copying exceeds the allowable character count, the excess characters will not be pasted. Please note that paragraphs and spacing are counted as characters.

Check that each segment appears exactly as you intended. This may be confirmed through the review-of-responses generated PDF. If any segment of your portfolio has not copied in its entirety you may need to do some further editing to reduce the character count.

It is the responsibility of the applicant to review the application BEFORE submission. With the exception of updating verification contact information, STRICTLY no changes can be made once submitted. Verification contact detail changes should only be requested if the contact has updated contact details or is no longer able to verify experience due to unforeseen circumstances outside the applicant's control. All verification contact details should be finalised before the submission of your Portfolio.

To update verification contact details, contact the Admissions Office of your higher-preferenced campus.

- Fremantle Admissions Office at fremantle.admissions@nd.edu.au.
- Sydney Admissions Office at sydney.admissions@nd.edu.au

Applicant Information

The GEMSAS application form will require submission of demographic information. This will also be incorporated into the Notre Dame Portfolio.

If you have selected both Notre Dame Fremantle and Notre Dame Sydney you will only need to complete ONE Notre Dame Portfolio which will be used by both schools.

Your application will be reviewed by your higher-preferenced campus. However, an offer of a place, if applicable, may come from either campus, (if you have selected both), and NOT necessarily from your highest preference. Under no circumstances whatsoever will any offer of a place to a new commencing student be transferable between Notre Dame's Fremantle and Sydney campuses.
