3 PURPOSE

These Program Regulations set out the approved requirements for the Graduate Diploma of Health and Medical Sciences.

4 OVERVIEW

4.1 Campus Availability

The Graduate Diploma of Health and Medical Sciences has been approved for delivery on the Sydney Campus.

4.2 Student Availability

The Graduate Diploma of Health and Medical Sciences is available for enrolment to domestic Students

4.3 Australian Qualifications Framework

The Graduate Diploma of Health and Medical Sciences is accredited by the University as a Level 8 AQF qualification.

4.4 Duration

The Volume of Learning for the Graduate Diploma of Health and Medical Sciences is one (1) year of equivalent full-time study.
An option to complete this Program Part-time is available.

4.5 Maximum Duration

The maximum period of time within which a student is permitted to complete the Graduate Diploma of Health and Medical Sciences Award is four (4) years (including any periods of approved leave of absence) from the date on which they were first enrolled into the program by the University.

4.6 Study Mode

The Graduate Diploma of Health and Medical Sciences is offered in Multimode Study mode.

4.7 Professional Accreditation

There are no professional accreditation requirements applicable to this Program.

5 ENTRY REQUIREMENTS

5.1 University Admission Requirements

To be eligible for admission to The University of Notre Dame Australia, all applicants must meet the [University's minimum requirements for admission](#). The requirements for admission are detailed in the University's Policy: *Admissions*.

5.2 Specific Program Requirements for Admission

There are no further requirements for entry to this Program.

6 PRACTICUM OR INTERNSHIP REQUIREMENTS

There are no practicum or internship requirements in this Program.

7 PROGRAM REQUIREMENTS

7.1 Program Description

The Graduate Diploma of Health and Medical Sciences is a postgraduate degree that aims to develop the biomedical and health sciences knowledge and skills of students from a range of non-science backgrounds. The program content is presented in a format relevant to students wishing to pursue careers in which a broad understanding of biomedical sciences is an advantage.

The program offers courses in Human Anatomy and Physiology with a clinically-relevant approach. Students will develop a nuanced understanding of medical science including the organisation and functioning of the human body. This also includes basic molecular and cellular principles of human biology and genetics, as well as other disciplines relevant to the understanding of pathology and disease processes. Students will become familiar with the process of obtaining ethics approval for research projects involving humans and develop a knowledge of clinical research methods. Courses will also enhance scientific communication skills, the understanding of the environmental determinants of human health, and the organisation the Australian health care system. Students will consolidate their appreciation of ethical issues relevant to health care and clinical research.

7.2 Program Learning Outcomes

Upon successful completion of the Graduate Diploma of Health and Medical Sciences graduates will be able to:

1. Apply knowledge of the structure and function of the human body, health, health care and advancing medical knowledge in professional contexts.
2. Integrate knowledge of health and medical sciences in other fields of endeavour, for professional development and lifelong learning.
3. Critically analyse and apply ethical principles related to health care and medical sciences.
4. Apply research and problem-solving skills to analyse and critically appraise health and scientific information.
5. Communicate health and medical science information effectively to a range of audiences.
6. Apply an understanding of the organization and regulatory framework of the Australian healthcare system in professional contexts.
7. Critically analyse the impact of biological, social and environmental determinants of health on the well-being of individuals and populations.

7.3 Required Courses

To be eligible for the award Graduate Diploma of Health and Medical Sciences, students must complete eight (8) compulsory courses, of 25 Units of credit each.

7.4 Elective Courses

There are no elective courses in the Graduate Diploma of Health and Medical Sciences.

7.5 Course substitutions

Course substitutions, where permitted, must be approved by the Dean.

7.6 Exit awards

7.6.1 If a student has completed sufficient courses to meet the requirements of a Graduate Certificate in Health Sciences or a Graduate Certificate in Medical Sciences, they may transfer to that award and immediately apply for graduation with that award.

7.6.2 If a student has not completed sufficient courses to meet the requirements of the Graduate Certificate in Health Sciences or a Graduate Certificate in Medical Sciences, they may transfer to the appropriate Award and complete further studies as part of that program.

8 DEFINITIONS

For the purpose of these Regulations, the following definitions are available in the General Regulations.

- Leave of Absence
- Major
- Units of Credit
- Pre-requisite Course
- Minor
- Elective
- Co-requisite Course
- Specialisation
- General Elective

APPENDIX A: Graduate Diploma of Health and Medical Sciences

Full time delivery

YEAR ONE					
Semester One			Semester Two
