

**Notre Dame Medicine Portfolio Template
2020 Entry Year**

PREPARATION TEMPLATE ONLY - DO NOT SUBMIT

Applicants are strongly encouraged to consider this template to assist in completing the Notre Dame Portfolio. Applicants will need to complete the Notre Dame Portfolio as a part of their online GEMSAS application. As this form is a template, it will not be accepted as a formal application for the MD program if submitted directly to the University. **Templates submitted to the University will not be considered.**

Paragraphs and spacing are counted as characters in the online GEMSAS application. Please ensure this is considered when using this template.

If you intend to copy and paste responses into the online GEMSAS application, ensure that you check that each segment appears exactly as you intended. This may be confirmed through the review-of-responses generated PDF. If any segment of your portfolio has not copied in its entirety you may need to do some further editing to reduce the character count.

It is the responsibility of the applicant to review the application BEFORE submission. With the exception of updating verification contact information, STRICTLY no changes can be made once submitted. Verification contact detail changes should only be requested if the contact has updated contact details or is no longer able to verify experience due to unforeseen circumstances outside of the applicant's control. All verification contact details should be finalised before the submission of your portfolio.

To update verification contact details, contact the Admissions Office of your higher-preferenced campus.
