

## Staff Wireless: Setup Windows 10 (Mobile)

The University of Notre Dame Australia uses an encrypted wireless network, to ensure that all information is protected.

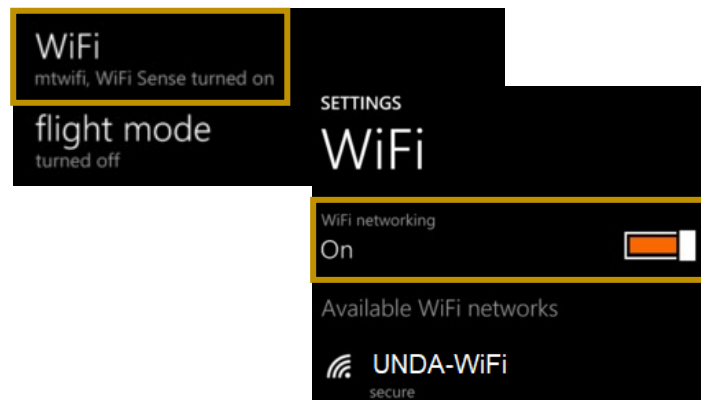

To access the wireless network, you must have an active staff or student username and password. Access to the university Wi-Fi is granted under the same policies as accessing our wired network.

To connect a Windows mobile device to the wireless network, please follow the steps below:

1. **Swipe left** to access the menu screen
2. Scroll to and select **Settings**

3. Select **WiFi**
4. **Turn on** WiFi networking
5. Select **UNDA-WiFi**

6. When prompted, enter your **Notre Dame Staff/Student ID**  
*e.g. 32001234 for students and 31001234 for staff*
7. Enter your **password**  
*This is the same password to log onto a campus computer*

8. **Accept** the Trust Certificate  
The network should now show as connected under the networks list.

If you can see, the network is connected; however, you are unable to search the internet. Please speak with the IT Service Desk.
