Blackboard Quick Guide

Once your assignments in Blackboard have been marked with a rubric (see link for details on how to do this) you have the ability to drill down into how the cohort did on the assignment at a criterion level. If you have aligned each criteria in your rubric to a course outcome this is a very quick way to show how well those outcomes have been met and what might need more work.

From the far left hand menu, choose Rubrics from Course Tools

Choose the Rubric you would like to report on. Hover your mouse next to the assignment name to bring up a dropdown arrow. From that menu, choose View Associated Content.
