

# Take Courage. Lead Globally.

World Youth Day Leadership Experience with Notre Dame Uni's Global Centre for Catholic Leaders

The Global Centre for Catholic Leaders offers this unique opportunity to take part in a **World Youth Day experience** that will draw together emerging Catholic leaders from across the globe to be at the forefront of Catholic education leadership going forward.

## Participants will benefit from:

- ✓ opportunities for personal faith development
- ✓ deeper appreciation of the global Church and Catholic education systems
- ✓ development of international networks
- ✓ peer learning
- ✓ development of skills that will allow them to strategically direct education policy to ensure it consistently reflects the depth and richness of Catholic teaching
- ✓ consideration of ways in which to proactively develop policy and programs that respond effectively to emerging needs and educational trends

This experience will culminate at **World Youth Day in Seoul in August 2027** and will include an in-person retreat both before and after World Youth Day.

**We invite you to nominate those aged between 20 and 35 working in Catholic education to participate in this formative experience.**

**Participants will be invited into online formation with Catholic leaders working in a range of roles and from across continents.**

**Online sessions beginning in July 2026.**
