7 PROGRAM REQUIREMENTS

7.1 Program Description

The Bachelor Arts in Psychology is a three-year program where students gain foundational knowledge and skills in psychology within a comprehensive liberal arts program. The program offers a deep conceptual and evidence-based understanding of the behaviour, cognitive functions, and emotional processes of human beings. Students explore how emotional and cognitive states influence individual development and behavior, and how these factors themselves can be influenced by physiological and biological processes. They are introduced to diagnosis and treatment of mental illness, while also examining scientific methods used to analyse a wide range of topics related to mental health and behavior. Students can complement their studies in psychology with an enriching range of second majors or minors which can broaden or deepen personal interests.

Bachelor of Arts in Psychology graduates think critically, creatively, and ethically to solve problems and are culturally and globally aware. They have research, interpersonal and communication skills and can work both autonomously and with others. They gain the knowledge and skills to apply theoretical, psychosocial, cognitive, and cultural perspectives and wellbeing models within a holistic framework to optimize wellbeing.

Graduates achieve the Australian Psychology Accreditation Council foundational competencies as a pathway for research, further learning and provisional registration.

7.2 Program Learning Outcomes

Upon successful completion of the Bachelor of Arts graduates will be able to:

1. Demonstrate broad theoretical and practical knowledge, with depth in the principles, theories, concepts, and methodologies of psychology;
2. Select and apply appropriate theory and methods to evaluate evidence, make recommendations and draw conclusions to problems;
3. Apply knowledge and skills in a manner that is ethical, reflexive, culturally appropriate and responsive to the diversity of human persons;
4. Communicate insights safely and effectively in a range of formats to diverse audiences;
5. Work independently and in collaboration with others.

7.3 Required Courses

To be eligible for the Award of Bachelor of Arts in Psychology students must complete a minimum of 600 Units of Credit, which includes the following required and elective courses:

- 50 Units of Credit from two (2) Core Curriculum Courses;
