Bachelor of Arts (Politics & Journalism) / Behavioural

Science

School of Arts & Sciences

Are you looking for a qualification that gives you a solid grounding in Australian political theory and contemporary journalism practice? This double degree from The University of Notre Dame Australia combines the Bachelor of Arts (Politics & Journalism) and the Bachelor of Behavioural Science. This unique program combines psychology, political science, cultural studies and sociology. Contact us today to find out more about this exciting opportunity.

Why study this program?

Employers want the skills you will develop in this double degree. The ability to research, analyse, interpret, draw conclusions and problem-solve is needed in the flexible workplace of the 21st century.

The Bachelor of Arts (Politics & Journalism) combines two disciplines into a single program of study. In addition to studying Australian and international politics and international relations, you will receive a solid grounding in journalism's diverse theories and practices, including your legal and ethical obligations. You will gain practical experience in various forms of journalism, including print, broadcast and online.

Your knowledge will be enhanced by completing a History course that provides an invaluable overview of the development of western society from the ancient world to the present. As the course description says, you will consider 'the politics and construction of western history, the use of

evidence and sources by historians and the skills and practice of history itself.’ A Business course, Introduction to Public Relations, expands your capacity to communicate effectively with various audiences.

The Bachelor of Behavioural Science is a unique program that combines elements of psychology, political science, cultural studies and sociology. Integrating specialised knowledge developed in these social science disciplines and with a strong focus on critical psychology, the program forges a connection between traditional psychology and social work.

As a graduate, you will be equipped with the skills and knowledge to work with those who may be experiencing marginalisation or disadvantage. As part of Behavioural Science, you will complete an internship which offers you the chance to apply your theoretical knowledge and learn much more in a professional workplace.

Fees and costs

This Program has the following loan scheme(s) available for eligible students:

Commonwealth Supported Place (CSP)

A Commonwealth Supported Place (CSP) is a place at a university where the Australian Government pays part of your fees. This part is a subsidy, not a loan, and you don't have to pay it back. However, this subsidy does not cover the entire cost of your study. Students must pay the rest, which is called the 'student contribution amount'.

In a Commonwealth Supported Place, your fees are subsidised by the Australian Government. Your fees will be split into two portions:

The Commonwealth contribution, which is the portion paid by the Australian Government.

The student contribution, which is the portion you pay. You may choose to pay upfront or defer your student contribution with a HECS-HELP Loan. The HECS-HELP loan scheme (<https://www.studyassist.gov.au/preview-link/node/106/5de65e70-6656-4297-a79d-19fd4a6deadd>) assists eligible students with the payment of all, or part, of their tuition fees, not including additional study costs such as accommodation or textbooks. Your HECS-HELP debt will be indexed each year in line with the Consumer Price Index.

Eligible students will be offered a CSP – you do not need to apply.

International Full-Fee Paying

Tuition costs depend on an international student's study load and discipline. Fees are payable each semester at least four weeks prior to the commencement of your program.

For indicative fees and information on how to pay, including Government loan schemes and our online calculator, visit our Fees, costs and scholarships page (<https://www.notredame.edu.au/study/fees-costs-and-scholarships>).
