Bachelor of Commerce / Bachelor of Behavioural Science

If you want a greater understanding of today's business environment, then The University of Notre Dame Australia's Bachelor of Commerce/Bachelor of Behavioural Science double degree is the perfect launching pad. You will be guided to develop knowledge, conceptual understanding and analytical skills to prepare you for the modern business landscape, supported by insight into how humans behave as individuals, in groups and as a society. Contact us today for more information.

Why study this program?

This degree combines both practical and theoretical components so that students gain a holistic appreciation and understanding of the business environment, along with insights into aspects of psychology, political science, cultural studies and sociology.

As part of the Bachelor of Commerce, you will have the opportunity to major in a variety of disciplines such as Accounting, Economics, Finance, Human Resource Management, Management, Marketing, Public Relations and Sport & Recreation Management. This wide choice of majors allows you to customise your degree to suit your personal and professional interests and academic strengths.

The Bachelor of Behavioural Science is based on the premise of social justice and equity for all people. It concerns itself with the practical application of such principles to all aspects of human interaction. A Behavioural Scientist values human diversity and works collaboratively with communities to identify and advance the goals of the group and the individuals who

comprise it. Behavioural Science promotes the concept of wellbeing and aims to facilitate this at the individual, relational and community levels. Your knowledge and skills in business and commerce will combine well with this people-centred focus.

As part of your double degree, you will undertake at least 90 hours in the Behavioural Science Internship course. This course provides valuable on-the-job experience, interaction with professional practitioners and a network of contacts. You will be able to apply your knowledge and skills, and to learn a whole lot more, in a professional workplace.

Fees and costs

This Program has the following loan scheme(s) available for eligible students:

CSP

A Commonwealth Supported Place (CSP) is a place at university where the government pays part of your fees. This part is a subsidy, not a loan, and you don't have to pay it back.

However, this subsidy does not cover the entire cost of your study. Students must pay the rest, called the 'student contribution amount'.

In a Commonwealth Supported Place, your fees are subsidised by the Australian Government. Your fees will be split into two portions:

- The Commonwealth contribution, which is the portion paid by the Australian Government.
- The student contribution, which is the portion you pay. You may choose to pay upfront or defer your student contribution with a HECS-HELP Loan.

Eligible students will be offered a CSP – you do not need to apply.

HECS-HELP

The HECS-HELP loan scheme assists eligible students with the payment of all, or part, of their tuition fees, not including additional study costs such as accommodation or textbooks. Your HECS-HELP debt will be indexed each year in line with the Consumer Price Index.

For indicative fees and information on how to pay, including Government loan schemes and our online calculator, visit our Fees Page (<https://www.notredame.edu.au/study/fees-costs->

and-scholarships).
