

THE UNIVERSITY OF NOTRE DAME AUSTRALIA

Pre-Medicine Certificate

School of Medicine, Fremantle Campus

Studying for a Doctor of Medicine (MD) is highly demanding and entry is highly competitive. This Pre-Medicine Certificate from The University of Notre Dame Australia is designed to prepare undergraduate students who wish to apply for this postgraduate Medicine program.

Why study this degree?

The Pre-Medicine Certificate is a four-subject program designed for students who are interested in applying for Medicine at Notre Dame upon the completion of their undergraduate degree. Spanning two core subjects, one experiential learning engagement and one elective, these additional subjects are studied concurrently with your undergraduate degree.

Over the course of your studies, you will encounter subjects such as psychology, the sociology of health and medicine, behavioural science, biological science and more. You will also be paired and mentored by the Pre-Medicine Certificate Coordinator who will help you choose your final year elective.

Please Note: the completion of the Pre-Medicine Certificate does not guarantee you entry to the School of Medicine. However, should you meet the required GPA and GAMSAT scores, you will automatically progress to the interview stage for postgraduate Medicine at Notre Dame's Fremantle Campus.
