

THE UNIVERSITY OF NOTRE DAME AUSTRALIA

Pre-Medicine Certificate

School of Medicine, Fremantle Campus

Studying for a Doctor of Medicine (MD) is highly demanding and entry is highly competitive. This Pre-Medicine Certificate Program from The University of Notre Dame Australia is designed to prepare undergraduate students who wish to apply for the Graduate Medicine Program, Fremantle Campus.

Why study this degree?

The Pre-Medicine Certificate (PMC) is a four-course program designed for students who are interested in applying for Medicine at Notre Dame, Fremantle upon the completion of their undergraduate degree. Spanning three compulsory courses and one elective, these additional courses are studied concurrently with your undergraduate degree.

The PMC program will cover topics such as health, medicine and society, cultural health issues, and human caring through service learning. You will also be supported and mentored by the PMC Team who will guide you through the program.

Please note: The completion of the Pre-Medicine Certificate does not guarantee you entry into the Graduate Medicine program. However, should you meet the required GPA and GAMSAT scores, your application for Graduate Medicine at Notre Dame's Fremantle Campus will automatically progress to the interview stage.

Program summary

Year One

- Health, Medicine & Society
- Culture Care, Diversity & Universality
