November, 18 December***

Time: 11am-2pm (AWST) 1pm - 3pm (AEST)

Cost: \$165 (inc. GST)

CPD Hours: 8 hours

***Location: Online webinar - register to receive
an access link***

The Respiratory Assessment, Oxygenation & Basic Ventilation Strategies online course is a 3 hour webinar based professional programme focusing upon the management of the acutely unwell patient with respiratory dysfunction in the hospital setting. The course utilises a mixture of presentations, workshops, and case study based clinical scenarios to develop and apply knowledge

and understanding of basic oxygenation and ventilation strategies. This knowledge and understanding is key the management of patients with acute respiratory failure. This approach to learning facilitates understanding of the core physiological changes linked to respiratory failure and clinical deterioration. It outlines the need for rapid intervention and target strategies to support oxygenation and improve ventilation in the acutely unwell patient.

Course Learning Outcomes

1. Improve outcomes for hospital patients at risk of clinical deterioration from respiratory failure
2. Develop further understanding of the processes contributing to physiological decline in the acutely unwell breathless patient
3. Advance the practitioners knowledge, understanding and confidence in the recognition and response to respiratory failure and the modalities available to support oxygenation
4. Advance the practitioners knowledge, understanding and confidence in the use of positive pressure ventilation and the modalities available in both non-invasive and invasive systems

About the facilitator

Dr Steven Hardman

**Senior Lecturer | School of Nursing & Midwifery
The University of Notre Dame Australia**

RN (Adult), DipHE Nursing, BSc (Hon), PGCert Higher Education, PGCert Critical Care, MSc, PhD

Dr Steven Hardman is a registered nurse with 26 years of post graduate experience. Steve has worked in a variety of settings across the globe including clinical, educational and military roles. He completed a PhD at The University of Notre Dame Australia with his research focusing on the role and competencies of graduate nurses dealing with clinically deteriorating ward patients. His areas of expertise are within acute and critical care nursing, clinical deterioration, advanced life support and resuscitation. Steve continues to work clinically as a senior nurse within a Metropolitan intensive care unit.

Steve is currently employed within the School of Nursing and Midwifery as a senior lecturer. This involves coordinating, developing and delivering several undergraduate and postgraduate nursing and multi-professional courses. Other roles and responsibilities undertaken by Steve include chairing the School Exam Committee, acting as academic liaison for undergraduate students, membership of the School Research Committee and the supervision of several higher degree by research students.

Testimonials

"Really good...has whetted my appetite for further study. Presenter...amazing!"

"Zoom was great for remote learning (I am in Qld), and Steve was a terrific presenter with the pace of the session perfect. Reading material was really useful along with copy of the presentation. Makes me really want to consider Notre Dame for future learning."

"Great lecturer. Managed to keep us all captivated for the 3 hours."

"Good refresher of aspects from my nursing degree and great discussion opportunity for new and arising treatments and obstacles in the medical field."
