Master of Nursing (Clinical Nursing)

School of Nursing & Midwifery, Fremantle Campus

If you have already completed either a Graduate Certificate in Clinical Nursing or a Graduate Diploma of Clinical Nursing, you may wish to enrol in this Master of Nursing program. Completed over two semesters you can choose an area of research relevant to your specialist nursing practice.

Why study this degree?

Taking a Graduate Certificate, Graduate Diploma or Master of Nursing is a useful career pathway for Registered Nurses who wish to formalise their qualifications or develop a specialist knowledge in a particular area of healthcare.

Our Master of Nursing (Clinical Nursing) can be completed over two semesters of part-time study. You should have already completed a Graduate Certificate in Clinical Nursing or Graduate Diploma of Clinical Nursing at Notre Dame's Fremantle Campus. You generally choose a thesis

subject relevant to your specialist area of nursing practice so you should discuss your study program with the school's postgraduate coordinator beforehand.

As a Master's student, you will be allocated a research supervisor who will help you choose a relevant research subject and oversee the completion of the program.
