Bachelor of Nursing

School of Nursing, Sydney Campus

At The University of Notre Dame Australia, our highly-respected Bachelor of Nursing degree is the foundation for a rewarding career in nursing. The on-Campus experience, including state-of-the-art simulation learning spaces, prepares students for practice as a registered nurse. Importantly, the program includes 27 weeks (1,026 hours) of full-time professional workplace experience where students are immersed in the practice of nursing and have opportunities to apply theory to practice.

Why study this degree?

Nursing, an essential part of every modern healthcare system, is a dynamic and constantly evolving profession. Our graduates are regarded as some of the best in Australia and are in demand. In fact, according to the current QILT (Quality Indicators for Learning and Teaching) survey of academic institutions, 88.4 per cent of our students found full-time employment after graduation, which is well above the national average.
At Notre Dame, you will be given not only the knowledge and skills necessary to work as a registered nurse, but you will also acquire the ability to think critically that will help you tackle every challenge you confront. You will also learn to speak up and advocate for people in your care, and adhere to the highest ethical standards. These are all highly prized attributes in the nursing profession.

In addition to your classes, you are expected to complete 27 weeks (ranging from six to eleven weeks per year) of full-time professional workplace experience so that you can put your studies into practice. The Bachelor of Nursing is fully accredited by the Australian Nursing and Midwifery Accreditation Council (ANMAC) and as a graduate you will be eligible to register with the Australian Health Practitioner regulation Agency (AHPRA) and work in a wide range of clinical settings.
